

DETAILED NOTE ON PROJECT

Gadasu Louhti Punan area under Rampur Tehsil is a remote area hitherto unconnected by road. The villagers have to take uphill journey to reach their villages. It is also very problematic for the villages to transport essential commodities to the village in the absence of a road link especially in view of the rugged terrain and steep slopes. It is also the policy of the Government to connect all Panchyats by constructing a link road Gadasu Lauhti Punan. The road length of the road is 0/000 to 6/478 Km. This road is being constructed to provide motor link to village Gadasu Lauhti Punan. The road will cater to the needs of population of about 738 souls and will give a boost to the local economy as the road link will facilitate the transportation of agricultural and horticultural produce like apple, pears, potatoes and other cereal crops to the markets. Besides this, the motor road will be helpful for the patients in case of medical emergencies. The project will generate about 85000 mandays directly during the construction phase besides generating indirect opportunities of employment as result of increased economic activity in the area. For the construction of this road 1.9683 hac. of forest land is required to be diverted for which this case under Forest Conservation Act, 1980 has been prepared.
