

DEATIL NOTE ON THE PROJECT

State :- Himachal Pradesh
Division :- Development Block Kullu
Sub- Division :- Kullu
Name of Work :- C/o Solid Waste Management Plant at Kasol.

HISTORY

The Solid waste Management Plant is being Constructed at village Kasol G.P.Kasol. It can successfully divide solid waste in to different parts, and make the different waste material further processed .In this way , the plant can eliminate waste pollution ,and also improve the environment for the next generation. There will be one Incinerator Machine , Plastic Shredder , Sanitary Pad Incinerator & Bio Composter Machine which will make garbage to Fertilizer and can be used for agriculture purpose and there will be no smoke /Pollution in that area.

As per Department of Environmental Science & Technology for setting up of Micro Solid Waste Management Plant and also directed to select the Pilot projects in Himachal Pradesh.

Taking into consideration Gram Panchayat Kasol to collect waste material in Panchayat area .For proper use Panchayat wants to construct the Solid Waste Management Plant at Kasol so that the area can be free from pollution
