

CHECK LIST -16

JOINT INSPECTION REPORT

Site inspection of forest land proposed for diversion in favour of Leond Hydro Power Pvt Limited Shimla for the setting up of Banu Small Hydro Electric project (5 MW) near village Manai tehsil Baijnath was conducted on 29th September 2015 along with staff of Forest Department, representatives of Revenue Department and the representatives of Leond Hydro power private Limited and the demarcated land was checked and confirmed with revenue papers.

The Banu Small Hydro Electric Project requires a total area of 02-29-26 hectare Forest land for different components of the project viz; trench weir, intake, Desilting tank, water conductor system, penstock, power house complex, switchyard, tailrace channel, work places, muck dumping sites, approach road to power house, transmission line from power house to joint transmission line to run up to 33/11 Kv sub-station at Binwa Project.

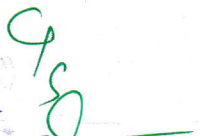

The Right of Way (width of corridor) adopted for transmission line is 16 meter.

During the inspection time joint inspection team examined all the alternatives with a view to avoid/ minimize the use of forest land and it is observed that land of the above Khasra nos. of forest land is the minimum requirement of the proposed project.

The land is essentially needed for the construction of the project. The area covered by this project does not fall in wild life sanctuary, National Park or Bio-sphere reserve. There are no archaeological monuments located in the area hence there will be no damage to any place of religious worship. The joint Inspection committee therefore recommended that an area of 02-29-26 ha. of forest land as detailed in check list may be diverted under Section 2 of forest Conservation Act, 1980.
