CHECK LIST SERIAL NUMBER- 28

DETAILED RECLAMATION PLAN

For the Construction of LILO from 400KV D/C Transmission line Lahal to Rajera at Tower no 8 to Pot Head yard for Evacuation of Power of JSW ENERGY (KUTEHR)LTD KUTEHR HEP 3X80 MW Vill. Machhettar Post Chanhota Teh. Bharmour Distt. Chamba. (H.P). Only 0.20 Hac. of Forest land is required for the tower bases. Land is sloppy and steep at many tower points and earth cutting and excavation is involved. The double circuit 400kV Towers have been designed with narrow bases and hill side leg extensions have been incorporated in the design, therefore, all the four legs will not be at the same platform in sloppy lands. This will involve small and moderate excavation/earth cutting. The excavated soil will be back filled and revetment work where required will be provided. No extra soil will be excavated or carried away. Therefore, no dumping space is required.
