

Clarification of calculation of Forest Area to be diversion

The total length on which road to be executed is 9165m on both side of existing drain in which with proposal of 7.45m width on both side. The width 7.45 have 3.831m related to irrigation department & 3.619m is Forest Protected Land on both side of the existing drain. Hence It is requested to diversion of Forest Land for construction of Road is $9165 \times 3619 \times 2 = 66336.275\text{sqm}$ or 6.6336Ha .
