The Additional Principal Chief Conservator of Forest (FC)
3rd Floor, Aranya Bhavan, Malleshwaram
Bengaluru-560 003

Sir,

Sub: Approval towards Forest clearance/Land for implementation of DDG project under DDUGJY scheme (erstwhile RGGVY XII plan) in CESC.

The Electrification of un-electrified habitations (Hamlets/JC/DB/TC/Thandas) and BPL households on Build, operate, maintain and transfer (BOMT) basis for a period of 5 years through Decentralized Distributed Generation (DDG) under DDUGJY scheme (erstwhile RGGVY XII plan) in Mysore, Madikeri and Chamarajanagar districts require land & forest clearance from the forest department. The approval towards Forest clearance/Land is essential for the implementation of these projects. The scope of the project includes Solar Panel erection, Control Room Construction and providing LT distribution with UG cable along with street light.

The rehabilitation of the habitations is considered as the habitations are within the Reserved/Wild life/Tiger Reserve forest areas and we assure that plant will also be shifted during rehabilitation of Habitations/Hadis. The following documents are herewith enclosed.

- 1) The list of land requirement mentioned against the Habitations.
- 2) The Village Profile of Habitations.
- 3) Mop/REC sanction letters

This is for your kind approval and needful on **"TOP PRIORITY"** as the project is a flagship scheme of Government of India.

Yours Faithfully,

Director Technical (Elec),
CESC, Mysuru
