Subject: Clarification regarding NOC for FRA

ONGC has proposed to drill 4 nos. of wells NRDE, NRDF, NRDG and NRDL from existing site of NRAF. Drilling these wells will not require any extra land. The land from where these 4 no of wells are to be drilled was handed over to ONGC on 21.02.2007 by Range Forest Officer (copy enclosed). FRA was not applicable in 2007; therefore, FRA for wells NRDE, NRDH, NRDG and NRDL is not required.
