No./EE/2015-16/ 776

Dated: - 10.3.16

Principal Chief Conservator of Forest  
Jaipur

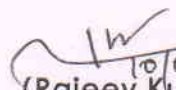

**Subject:-** For seeking permission for laying and jointing of DI pipe line from Lalpura to Bhadsi under Chambal Bhilwara water supply package, phase-II, package-IV

**Reference: -** Proposal No: - FP/RJ/water/16150/2015  
Proposal name: - CBWSP ASIND  
Category of proposal: - Drinking water  
Area applied: - 0.525 hectares

**Facts regarding taking 1 meter width of trench for seeking permission**

Kindly refer the subject and reference cited above. In this regard it is stated that proposed pipe line is of Ductile Iron (DI) having 150 mm diameter. For laying pipe of 150 mm diameter, the trench width shall be around 550 mm and that's why total width of 1 meter has been considered taking margin for maintenance etc.

It is worth mentioning that along this pipe line no electric line is required and that pumping station of this pipe line is proposed at Lalpura. Land of Lalpura pumping stations has already been allotted by the revenue department as this land (Lalpura) does not fall in the forest area.
