

**CERTIFICATE REGARDING SUITABILITY OF AREA IDENTIFIED FOR
COMPENSATORY AFFORESTATION (CA) AND FROM MANAGEMENT POINT
OF VIEW**

No suitable non-forest land is available for taking up compensatory afforestation under Tamenglong Forest Division, Tamenglong. As such, suitable degraded forest land has been identified under the Division as shown below:

Sl.No.	Division	Name of village/ plantation site	Area (Ha)	Block/compt. No.
1.	Tamenglong Forest Division	Khongjaron	3.7	Khongjaron/30
	Total		3.7	

The forest type of these areas falls under sub-Tropical semi-Evergreen and moist deciduous Forests. Tree species such as *Alnus nepalensis*, *Schima wallichii*, *Gmelina arborea*, *Terminalia myriocarpa*, *Cedrela toona*, *Bombex ceiba*, *Juglans regia*, *Bambusa tooldo/nutans*, etc. and animal species such as Leopard Cat, Flying squirrel, Monitor Lizard, Amur falcons etc are found in these areas. As such, tree species namely *Gmelina arborea*, *Terminalia myricarpa*, *Michelia champaca*, *Artocarpus chaplasha*, etc, will be suited for plantation in the areas.

The identified CA sites can be managed effectively because of their proximity to the villages. Hence, the areas identified are best suited for taking up of Compensatory Afforestation (CA).
