

While uploading the data in the part-II of the proposal in this website, Serial No. 4 (ii) - i.e. Species wise local / scientific names and girth wise enumeration of trees at FRL. There are no tree species in the proposed diversion land. However, due to technical issues website showing notification as " please provide atleast one entry in Species wise local / Scientific names & girth wise enumeration of trees " Hence, one species is selected and no. of trees is shown as Zero as there are no trees in the proposed area.
