1. Memo No.4138 dt12.11.2020 of RCCF Rourkela
2. Letter No. No.1134/4F (Misc.) /2020 – Dt. 11.03.2020

Respected Sir,

With reference to the letters mentioned on the subject cited above, the point wise compliances of the EDS raised by your good offices, is furnished below:

i) ***While preparing the compensatory afforestation scheme (CA), safety zone area has not been properly considered:***

Reply: In compliance to the above, the project proponent would like to bring to your kind notice that the revised compensatory afforestation scheme is hereby being attached as "**Annexure A(i)**". The scheme has been prepared by excluding the forest area involved in the safety zone.

ii) Establishment of skill development institutes have not been properly addressed:

Reply: In compliance to the above, it is to state that:

a) Apart from giving land compensation and resettlement, MCL is providing employment to every eligible project affected person. The village-wise approval of project affected persons employed/to be employed by MCL is given below:

Village	Siarmal	Jhuprunga	Gopalpur	Tumulia	Kulda
Employment approved	127	402	659	224	74
Monetary Compensation given/to be given to persons not able to work due to age.	51	213	109	478	19

A group **vocational training center** approved by the Director General of Mines Safety is being operated by MCL to impart initial training to work persons employed departmentally as well as contractually with regards to all safety measures for working in mines. The details regarding the same is attached herewith as **"Annexure A(ii)"**.

b) For the employed youth, an agreement has been signed between the user agency and M/s MITS, Rayagada under Basantidevi Charitable Trust to impart ITI training to the land outsees under its Rehabilitation and Resettlement scheme (R&R) for skill development training programme, the agreement letter is attached herewith as **"Annexure A(iii)".**

c) For the unemployed youth, MCL has been doing skill development programs and accordingly an agreement has been signed with the Central Institute of Plastics Engineering & Technology **(CIPET)** on **17.11.2020** for a project proposal "**Handyman**", a multi-skilled development program for youth, the details of which is attached herewith as "**Annexure A(iv)".**

d) Apart from this, the PAFs from the nearby villages have been employed under different companies which are working within the coalfields, the details of which are attached herewith as "**Annexure A(v)**".

e) However, an undertaking is hereby being provided that ***"The user agency shall establish and operate a Vocational Training Institute having capacity to impart training in at-least five disciplines, to be decided by the State Government concerned in consultation with the user agency, for the benefits of the eligible unemployed youth in the project affected villages."*** The undertaking is attached herewith as "**Annexure A(vi)**".

iii) Setting up independent social welfare department/Division has to be properly addressed:

Reply: In compliance to the above, the project proponent has already set up a "**Samadhan Kendra**" to hear the grievances of public and understand their socio-economic conditions. Please refer to "**Annexure A(vii)".**

In addition to this, the department of land and revenue consisting of a senior officer in the rank of the Chief Manager is established to oversee the welfare of the land outsees and project affected persons. This department deals in the following:

a) Land Compensation

b) Structure compensation

c) Compensation of trees, plants, ponds, wells, etc. in the tenancy lands

d) Employment

e) Cash in lieu of employment

f) Monetary Compensation

g) Rehabilitation

h) Resettlement

The rehabilitation and resettlement of project affected persons is decided based on the survey of Honorable Claims Commission appointed by the Honorable Supreme court of India. To further facilitate the solution of the complaints and grievances if any of the persons employed and general public, a Samadhan Kendra is established by an order of the competent authority. This facilitates the faster resolution of complaints as they are directed to the respective departments for speedy resolution. The details of the grievance addressal system is attached herewith as "**Annexure A(viii)**"

iv) Provision of employment to every eligible project affected person should be properly addressed.

Reply: In compliance to the above, provision of employment to every eligible project affected person is attached herewith as "**Annexure A(ix)**".

v) In many points, the compliance made by you is inadequate:

Reply: In compliance to this point, the compliance to each and every point has been readdressed and has been submitted to your good offices in consultation with the dealing assistant as per your prior guidance.

vi) Justification for locating the project in forest land is inadequate:

Reply: In compliance to the above, the justification for locating the project in forest land has been revised and is attached herewith as "**Annexure A(x)**".

vii) Maps complete in all respects should be submitted.

Reply: In compliance to the above, maps complete in all aspects is attached herewith as "**Annexure A(xi)**".

1. Introduction

Siarmal OCP is consisting of Siarmal, Siarmal Extension and Banapatra blocks and located in north-western central part of Ib River coalfield of Odisha, known as Gopalpur sector. The Ib River coalfield lies in between latitude 21º31' to 22º14' North and longitude 83º32'00" to 84º10'00" East and falls mainly in Sundargarh, Jharsuguda and Sambalpur districts of Odisha. District headquarter Sundargarh, on State Highway-10 (Sambalpur to Rourkela), is at a distance of about 46 km. from the blocks. The Sundargarh (Odisha) – Raigarh (Chattisgarh) all weather road passes through the blocks. The blocks are also connected by black top road with two important towns of Odisha namely Rourkela at 145 km and Jharsuguda at 75 km. The blocks come under Himgir Tahsil and Balinga police station in the district of Sundargarh, Odisha. The blocks are around 6 km. south west of Basundhara West Colliery and are connected by part metallic road. The blocks are connected by road to the state capital Bhubaneswar through State Highway-10 and National Highway-42, with a total distance of around 450 km. The blocks are well connected with MCL HQ at Sambalpur situated at a distance of about 100 km. The Nearest railhead is Hemgir, on Mumbai-Howrah Broad Gauge of South Eastern Railway at a distance of about 35 km from the blocks. Jharsuguda railway station on Jharsuguda-Sambalpur-Bhubaneswar rail line of East Coast Railway is at a distance of about 75 km. The nearest port at Bay of Bengal is Paradip and situated at a distance of about 600 km. from the block. The Jharsuguda Airport, is the nearest airport from the block (Approx. 45 KM). This project is an open cast mining project having 1547.82 MT of quarriable coal reserve in Siarmal, Gopalpur, Ratansara, Jhupurunga, Tumulia and Kulda villages.The Siarmal OCP has got a life span of 39 years. The project extends over an area of 2290.449 Ha of tenancy land, forest land and Non-Forest land as detailed below:

Sl. No.	Type of Land	Area in Hectares
1.	Revenue Forest Land	349.709 Ha.
2.	Govt. Non-Forest Land	448.843 Ha.
3.	Tenancy Land	1491.898 Ha.
Total Land		2290.449Ha

2. Forest Land Involved

Out of the total land requirement of 2290.449 Ha, the Siarmal OCP involves 349.709 Ha including 3.930 Ha of forest safety zone, which is to be diverted for non-forestry purpose. The detailed Land schedule of Forest land proposed for non-forestry purpose is furnished below:

Sl. No.	Type of Use	Area in Hectares
1.	Mining Zone	260.769 Ha
2.	OB dump, Embankment, other infrastructure and Blasting danger zone	85.010 Ha
3.	Safety zone	3.930 Ha

3. Identification of Degraded Forest Land

As per revised guidelines contained in letter No.11-30/96-FC, dated 10.04.1997 of the Ministry of Forest & Environment a special provision for Central Government Projects has been made for compensatory afforestation by inserting Para 3.2 (viii) (inserted) in the existing guideline. As per revised guideline for diversion of Forest Land under the **Forest (Conservation) Act – 1980**, compensatory afforestation can be done over degraded forest land twice in extent of forest area being diverted for Central Projects. As per **clause 4.7** of the consolidated guidelines for diversion of forest land under the **Forest (conservation) Act – 1980** in the matter of mining lease, the forest Area required for safety zone for mining operation should be the part of the forest area proposed for diversion.

Therefore, the present scheme for compensatory afforestation aims at prescribing afforestation program over **712.477 Ha** of degraded forest area (twice in extent to the forest area of **349.709 Ha** including the area of safety zone i.e.,3.930 ha.) being diverted. Accordingly, a gross area of 712.477 Ha of degraded forest area has been identified in Satparlia Reserve forest under Sundargarh Forest Division. The identified area of degraded forest in Satparlia Reserve forest is in a single patch. The DGPS map showing the afforestation site in Satparlia R.F is furnished herewith as **Annexure – K.** The degraded forest lands identified having found suitable for afforestation; a certificate to that effect is furnished in **Annexure I**. The compensatory afforestation sites are shown on toposheet enclosed in **Annexure M.**

4. Topography

The altitude of afforestation site selected in Satparlia varies from 280 to 290 mts. The thickness of soil varies from shallow to moderate. The lateritic soil with moorum is seen in some places and at other it is sandy loamy. The drainage is good. The soil is also devoid of humus. At the site, erosion varies from slight to moderate.

5. Climate

The climate of this region is characterized by hot dry summer with well distributed rainfall in South West monsoon season. Cold seasons begin in the month of November and lasts till the end of February. The hot seasons follows thereafter and continues till June. The South-West monsoon starts from mid-June and continues till the end of September. The annual rainfall varies from 1200 to 1500 mm. The months of October and November constitute the post-monsoon seasons. The climate in general is hot, moist and sub-humid. The temperature varies from 15^0C to 48^0C. May and December are the hottest and the coldest months of the year respectively.

6. Existing Vegetation

Satparlia R.F which is situated approximately 7 km away from Sundargarh is much degraded due to severe biotic interferences and fires. As a result, the forest has been dry and open. The R.F contains bushy forest growth of dry deciduous species namely Karala, Sidha, Dharua, Char, Kendu, Sal, Dhatki, Dumkurdu, Kurdu and Kurai.

7. Proposed Techniques of Afforestation:

The density of forest cover in identified site in Satparlia R.F varies from 0.3 to 0.4. Many gaps are noticed inside the identified site. As the site being degraded with rooted stocks, it is proposed to take up rehabilitation work with regeneration, cleaning of existing crop and gap planting in the blanks. As the soil thickness varies from shallow to medium and the moisture retention capacity of the soil is poor, the pit size is proposed to be 30 x 30 x 30 cubic cm. It is proposed to plant 1000 nos. of seedling of native species at a spacing of 2.5 mt x 2.5 mt. in the gaps. Such ANR works will be taken up over 691.558 Ha ({349.709-3.930} x 2) out the gross area of 712.477 Ha in Satparlia R.F of Sundargarh Range.

Keeping in view the existing natural vegetation, the edaphic and climatic factors, the following species are chosen to be taken up for plantation:

1. Bamboo- Dendrocalamus strictus

2. Neem - Azadirchta indica

3. Karanj - Pongamia pinnata

4. Amla - Emblica offcinalis

5. Asan - Terminalia tomentosa

6. Jamun - Sizygium cumini

7. Khair - Acacia catechu

8. Bahada - Terminalia chebulla

9. Sissoo - Dalbergia sissoo and others.

(i) Raising of Nursery Stock

Eighteen months old seedlings will be collected from Departmental Central Nursery and dibbled in poly pots for plantation.

- **Following two major operations will be carried out:**

A. Regeneration Cleaning:

This operation will be carried out in winter. Following works will be carried out during this operation:

1. For helping the rooted waste to grow better all the unwanted growth including climber and creepers will be cleaned and removed and the useful species will be freed from suppression.
2. The mal formed stems will be coppiced. When there will be more than one shoot, the sound shoot will be singled out.
3. The congested stands of useful species will also be thinned.
4. Where congested bamboo clumps are available, the same will be cleaned.
5. High stumps will be cut flush to the ground

B. Gap Planting:

For filling up the blanks, 1000 numbers of seedling per Hector is proposed in ANR plantation. The detailed plantation activities & cost has been appended in **Annexure B**.

In the area chosen for plantation work, two stages of weeding are recommended to be carried out. To promote and enhance the growth of the plants, it is necessary to see that, the plants get as much nutrients as possible and that no other plants are competing for space, light and nutrients. Therefore, weeding and soil working must be taken up in a newly created plantation. The period of weeding should be as follows:

(A) 1st weeding and manuring (including casualty replacement) – Last week of July.
(B) 2nd weeding, soil working & manuring – Last week of August/ September

1st weeding is an area weeding and should be taken up after a fortnight of completion of planting. In this weeding, the weeds around the planted seedlings are pulled to a radius of 45 cm and in all other space, they are cut back. During this operation, a dose of NPK fertilizer @ 20 grams per plant will be given to each plant. 2nd weeding is a strip weeding to be taken up in the last week of August/ September. This weeding shall also be carried out along the contour and the cut-out materials will be kept in intermediate lines. In soil, working the soil around each plant is loosened. The soil should be left in clods which will improve soil aeration and help develop root system along with moisture conservation by breaking soil capillary action. The detail plantation cost has been appended in **Annexure B**.

8. Soil Conservation Measures (SCM):

The slope of the area varies from gentle to moderate and at places steep. Soil conservation measures are indispensable and are to be appropriately addressed. The following measures are proposed to be taken:

1. Staggered contour trenches are to be dug in the sloped area of a size 2 m x 50 cm x 50 cm at a contour interval of 5 meter and vertical interval of 2 meter. 2500 m such staggered trenches are proposed to be dug which shall be placed in between the plantation contour lines. This will help in conserving water for planted seedling and checking soil erosion. The earthen bund on the lower side of the trenches is to be stabilized with vegetative plantation.
2. Linear contour bund is to be erected at foot over 2.5 km with vegetative plantation on the bund which will retard the velocity of water coming from the upper label to the plains, thereby help in checking soil erosion.
3. Check dams are proposed to be constructed out of dry rubble work in small nallah specially to be given on the upper reaches of the nallah. Twenty-five such dams have been proposed to be taken up.
4. To check soil erosion and the rain water draining out of the area, it has been proposed to take up special conservation measures by digging staggered trenches along the contour over the area @ 200 nos. per Ha. The size of the trenches will be 2 m x 0.5 m x 0.5 m. Digging of staggered trenches

will be done during September of first year. Agave planting will also be taken up on the dugout soil of the trench for its stabilization and to restrict the dugout soil from refilling into the trench. Thus, an amount of **Rs. 10,22,427/-** is required for **31.50 kms.** considering **Rs. 32,458/-**per km. for carrying out such special Soil & Moisture Conservation Measure. The cost norms for the same is enclosed vide **Annexure-E.**

(i) <u>LOOSE BOULDER STRUCTURE (LBS):</u>

Taking into the consideration the degradation of the area due to soil erosion, it has been proposed to take up Soil Conservation Measures by construction of Loose Boulder Structure over the area of size, (1mt=40 Nos., 2mt = 40 Nos.& 3mt= 24 Nos.)

Name of the Range	**Name of the site**	**Area in Ha.**	**No. of LBS (1 meter in size)**	**No. of LBS (2 meters in size)**	**No. of LBS (3 meters in size)**
Sundargarh Range	Satparlia R.F.	691.558	@Rs.2851/- per LBS For 40 Nos.: **Rs.1,14,040/-**	@ Rs. 5497/- per LBS For 40 Nos.: **Rs.2,19,880/-**	@ Rs. 11356/- per LBS For 24 Nos.: **Rs. 2,72,544/-**

The details of Loose Boulder Structure (LBS) have been appended in **Annexure- D(i), D(ii), D(iii)**

9. Protection

In addition to an above measure, watchers are to be employed on daily wage basis for five years for success of plantation.

10. Miscellaneous operation:

I. **Survey and Demarcation:** The gross area of the plantation sites in Satparlia R.F must be surveyed and demarcated. It is necessary for future maintenance and management. The area will be surveyed with a prismatic compass and chain. The boundaries of these plots will also act as inspection path and fire line. Masonry pillars would be posted at the boundaries.

II. **Fire lines tracing and management:** Fire is a great destroyer of forest and young shoots. So, the boundaries at the area will be scrapped of any plant growth to a width of 2 meters

during February/ March and the cut back materials would be burnt under strict supervision. The inspection path will be scrapped of weak growth to prevent spreading of fire, if any.

III. **Peoples' participation:** The local communities are to be involved in protection work by forming VSS.

IV. **Total financial outlay:** The total outlay for the scheme is Rs. 23,58,36,952.32 i.e., **23,59,00,000.00** (enclosed as **Annexure A**).

V. **Executing Agency:** Divisional Forest Officer, Sundargarh.

Annexure -C

Estimate for Barbed Wire Fencing

1. Requirement of barbed wire per km as per Plantation cost norms 2019, Annexure 37: 1912 kg @ Rs. 80/kg

   Therefore, total cost of barbed wire per km: Rs. (1912 x 80) = Rs. 1,52,960.00

   Now, the total cost of barbed wire per km for 31.50 km = Rs. (31.50 x 1,52,960.00) = **Rs. 48,18,240.00**

2. Construction of RCC pillars

   As per plantation cost norms 2019, Annexure 37, the cost of one pillar is Rs. 644.00

   Requirement of pillars per km:

   Spacing 2.5 mt x 2.5 mt

   Requirement= 1000 mt/2.5 mt = 400 numbers

   Strut pillar in every 10^{th} pillar = (400/10) x 2 = 80

   Therefore, total number of pillars per km = 480 numbers

   Cost of pillars per km: Rs. 644.00 x 480 numbers = Rs. 3,09,120.00

   Total number of pillars in 31.50 km: 15,120

   Cost of pillars for 31.50 km: Rs. 644 x 15120 = **Rs. 97,37,280.00**

3. Fitting fixing of RCC pillars in position with hbg metal (4cm) in C.M. (1:4:8)

i) Digging of pits 1.5' x 1.5' x 1.5 '= 3.375 cft/pit

   For 480 pits, 480 pits x 3.375 cft/pit =1620 cft or 45.86 cum @ Rs. 12,040.00/100cum =Rs. 5521.54

   For 15120 pillars, total digging to be done: 51,030.00 cft or 1445.00 cum

   Hence, cost for digging of pits in 31.50 km of total length: 1445.00 cum x Rs. 5521.52 = **Rs. 79,78,596.40**

ii) Fixing of pillars with 4cm hbg metals in C.M. 1:4:8

Total C.C. work per pillar: 2.25 cft

For 480 pillars: 480 x 2.25 = 1080 cft or 30.577 cum @ Rs. 3629.46/cum

For 15120 pillars, 15120 x 2.25 = 34,020 cft or 963.34 cum

Therefore, total cost for fixing of pillars with 4cm hbg metals in C.M. 1:4:8: 963.34 cum. x Rs. 3629.46 = **Rs. 34,96,404.00**

4. Labor for straightening the barbed wire and fixing & clipping with pillars, 70 M.D. per km @ 308/-: Rs. 308 x 70 = Rs. 21,560.00

   Therefore, for 31.50 km, total cost = Rs. 20,860.00 x 31.50 = **Rs. 6,79,140.00**

5. Carriage of barbed wire & pillars to work site @ Rs.1000/tl. and cost of loading & unloading within 5 km distance approximately 10 tld @ 800/tld = Rs.18,000

   Therefore, for 31.50 km,

   total cost = (31.50/5) x Rs. 18,000.00 = **Rs. 1,13,400.00**

6. Provision of one Iron Gate of size (4' x 5') on LS = Rs. 7,500.00

   Therefore for 31.50 km, total cost of providing Iron Gate: Rs. 7,500 x 31.50 = **Rs. 2,36,250.00**

   Total Expenditure: Rs. 2,70,59,310.40

   Labor cess @ 1%: 270593.10

   Total Expenditure including labor cess**: Rs. 2,73,29,903.50**

7. Expenditure towards maintenance for 3 years (3^{rd}, 6^{th}, and 9^{th} year)

   @ 2% of cost = 3 x 0.02 x Rs. 2,73,07,633.00 = **Rs. 16,39,794.21**

   Grand Total: Rs. 2,89,69,697.71

Estimate for digging of staggered trenches along with plantation of agave on the mound

- **Digging of Staggered Trenches:**

- Earth work in ordinary soil of staggered trenches of size 2 mt x 0.5 mt x 0.5 mt:

  Male Labor, 16 numbers @ Rs. 308 per MD = Rs. 4928.00

  Female Labor, 16 numbers @ Rs. 308 per MD = Rs. 4928.00

  Total: **Rs. 9856.00/100 cum.**

  Size of Staggered Trench: 2.0 mt x 0.5 mt x 0.5 mt = 0.5 m^3

  For 100 cum, earth work, cost involved= Rs. 9856.00

  For required 0.5 cum of earth work, cost involved = Rs. (9856 x 0.5)/100 = Rs. 49.28

  Therefore, for 200 numbers of staggered trenches/km,

  Total cost = Rs. 49.28 x 200 = **Rs. 9856.00**

- Cost of Agave Planting on the dugout soil and its maintenance including weeding, soil working, manuring, cost of fertilizer etc., for Seven years.:

  03 nos. of average plants per trench @ Rs. 37.67 per plant = Rs. **113.01**

  Therefore, for 200 numbers of staggered trenches,

  the total cost of agave planting: 104.52 x 200 = **Rs. 22,602.00**

- Total = Rs. 9856.00 + 22,602.00 = Rs. 32,458.00 for 200 numbers of staggered trenches/km

  Therefore, for 31.50 km, Rs. 32,458.00 x 31.50 = Rs. 10,22,427.00

- Thus, the total cost for digging of staggered trenches along with plantation of agave on the mound is **Rs. 10,22,427.00**

- Prepared on the basis of Plantation cost norms

Cattle Proof Trench Fencing

- **Specifications:**

Length: 1.0 meter

Top Width: 2.0 meter

Bottom width: 1.0 meter

Depth: 1.5 meter

Cross Section: [(2.0 meter+1.0 meter)/2 x 1.5meter] = 2.25 m^2

Earth Work: (1.0meter x 2.25 m^2) = 2.25 m^3

Cost per 1 running meter= 0.72 MD = Rs. 221.76 (@ **Rs. 308**/Wage MD Rate)

Cost for **31,500** running meters = Rs. (31,500 x 221.76) = **Rs. 69,85,440.00**

Handyman: One pager

Project ideation: 'Handyman' is the one who comes *handy* in providing multi-skilled services. The idea is that rural unemployed youth should be imparted self-employment oriented multi-skill training by an established training facility. Each individual should be trained in several skills unlike the traditional training programs which are confined to imparting training in a single trade. The trades selected for the purpose should meet the local requirements. To this objective, trades of Electrical, Mechanical, Welding and Agriculture equipment have been included. The trained youth will be provided with tool kit. Each candidate will be given a tool kit worth Rs. 59,300/- on completion of training. Once trained, they will start their own micro-entrepreneurship by providing repair-maintenance (R&M) services by remaining in their home villages. Their home will be the call centre from where they will attend the calls for which a Mobile app will be developed.

Agricultural tools have been added with a specific motive. Thanks to the enhanced credit facilities, farmers are progressively adopting technology intervention and mechanical implements in their farming framework. With growing numbers of sellers & buyers, market of agricultural tools/ equipment is expanding, But the same is not true when it comes to repair-maintenance service. In 'Handyman' project, the candidate will be imparted basic skills of repair and maintenance of domestic/agricultural pumps, submersible pumps, agricultural tools, tractor driven equipment like tillage, plough, cultivation and sowing equipment. With them taking the position, a farmer need not go for a long haul to the dealer/ showroom located far away. 'Handyman' will be his R&M service provider available at his doorstep.

An underlying principle of the project is that the youth will start earning by remaining in his village. He is having parents and siblings to look after, agriculture land to work, and livestock to take care. Add to this, there is a socio- cultural bonding with the community. All these factors stop him to move away from the village. *Handyman* concept takes in to account all these factors. The project envisages selection of trained youth in a distributive manner across the entire rural areas such that each candidate has a span of command around his home where he can render the services and intrusion of operational area is avoided.

So, the concept intends to impart **'Handyman' (Multi skill) training** to rural youth with the objective that the trained youth will start their own micro-business to earn a sustainable livelihood. The catchment area for each Handyman will be the rural and semi-urban settlements surrounding his residence. They have the option to go to farther place also as per their choice.

Executing Agency: CIPET (under Ministry of Chemical & Fertiliser, GoI). 6-months residential training. CIPET to take care of boarding, food, uniform etc. Criteria 10^{th} pass. Selection will be done by CIPET. Course curriculum designed/ tailor made by CIPET Bhubaneswar in consultation with Agri-University. Candidates will be trained at CIPET Bhubaneswar where it runs an ITI and a Polytechnic. CIPET has tied up with Odisha University of Agricultural & Technology to impart training on Agri tools.

Cost estimate:
Rs.41, 44,606 for 24 candidates @ Rs. 1,72,692/- per candidate

‘Handyman' Project

- In a meeting under the Chairmanship of Additional Secretary (Coal) held on 16-05-2019, all the subsidiaries of CIL were instructed to take necessary actions for implementation of the “Handyman” project
- **‘Handyman'** a multi-skill training in electrical, welding, plumbing and repair-maintenance of agricultural tools.
- **Estimated cost:** Training & Tool Cost for 6-months training for 24 candidates- Rs. 41,44,606
- **Beneficiaries:** Unemployed youth (24 nos.) from MCL Mines Areas
- **CSR admissibility**: Livelihood enhancement projects (Clause no-II).
- **Execution**: CIPET Bhubaneswar

Genesis of the project:

Ministry of Coal called a meeting under the Chairmanship of Additional Secretary (Coal), on 16-05-2019 to review the progress of Skill Development works in coal companies. In the meeting, the Additional Secretary (Coal) gave impetus to include Skill Development in the CSR efforts. Contents of Minutes of the meeting relevant to the subject proposal are quoted as under:

"With a view to create self employment opportunities for youth as “Handyman”, a multitasking module of training was proposed in which a person is trained in several skills required at local level such as electrician, plumber, motor/pump repair, basic home appliances repair & maintenance, mobile repair etc. A team of two or three such “Handyman” can easily sustain themselves in local area of about 15-20 Sq. Kms.

The training material should include start-up kits so that the trained youth can straight away begin practicing the skills acquired."

All the subsidiaries were instructed to take necessary actions for implementation of the “Handyman” project.

Ideation:

MCL initiated the action process by searching and looking for various specialised agencies who are specialists in imparting skill development trainings. CSR department conceptualised the 'Handyman' idea and prepared an elementary Conceptual plan. The idea was that the rural unemployed youth of peripheral villages should be imparted self-employment oriented multi-skill training by an established training facility. Each individual should be trained in several skills unlike the traditional training programs which are confined to imparting training in a single trade. The trades selected for the purpose should meet the local requirements. To this objective, we decided to include the trades of Electrical, Mechanical, Welding and Agriculture equipments. Repair of home appliances and mobiles was kept excluded from the purview for two reasons, firstly because we wanted the youth to be trained on hardware skill rather than soft skills which are available in plenty, and secondly because the trades selected in the combo are inter dependent, inter related and almost collectively exhaustive. The trained youth will be provided with tool kit. CSR deptt prepared a Concept Note-cum-Approach Paper for ‘Handyman’ project.

Brief of Handyman Concept Note:

Our mining projects are located in the rural areas of Angul, Jharsuguda and Sundargarh districts. There is a large population of displaced, to-be-displaced, and project effected communities residing in different locations surrounding the 'Areas'. MCL is in regular interaction with these communities for land acquisition, resettlement & rehabilitation and for acquiring Forest land.

The community has highest level of expectations from MCL on various fronts. While many get regular employment, there are some who doesn't fall within the scope of eligibility. They don't get regular employment, although they too are compensated as per the rules.

Against this background, MCL is contemplating to train and equip rural youth from among the surrounding settlements for skill based self-employment/ livelihood program. The concept runs as under-

'Handyman':

Unemployed youth (24 nos.) will be selected from different Areas. They will be imparted multi-skill training in electrical, welding, plumbing and repair-maintenance of agricultural tools to emerge as a 'Handyman' (i.e. the one who comes *handy* in providing multi-skilled services). Once trained, they will be given tool kit so that they can straight away begin practicing the skills acquired. Then they will start their own micro-entrepreneurship by providing repair-maintenance (R&M) services by remaining in their home villages. Their home will be the call centre from where they will attend the calls and proceed to attend the call of duty. Agricultural tools have been added with a specific motive. They should be imparted the basic skills of repair and maintenance of domestic/agricultural pumps, submersible pumps, agricultural tools, tractor driven equipments like tillage, plough, cultivation and sowing equipments.

So, the concept intends to impart **'Handyman' (Multi skill) training** to rural youth with the objective that the trained youth will start their own micro-business to earn a sustainable livelihood. The catchment area for each Handyman will be the rural and semi-urban settlements surrounding his residence. They have the option to go to farther place also as per their choice.

Search for training agency:

From the above perspective, intervention of the training agency will be on following lines:

1. Designing tailor made 'Handyman' training module covering Electrical, Welding, Plumbing and Agricultural tools, keeping in mind the typical requirements that usually arise in rural settlements. It is to be kept in mind that the settlements being referred are, for obvious reasons of the presence of MCL and other industries, are progressive and gradually converting into semi-urban settlements and their socio-economic condition is on the rise.
2. Submitting the Project report covering following:
   a) Training module with financial break-up of training
   b) Estimate break-up of tool kit with list of tools

c) Estimate break-up of three wheeler with equipments

A number of Organizations/ Institutes were contacted and then based on the response, the Idea alongwith the Concept note-cum Approach paper was shared with two skill training agencies who agreed to propose a training module as per the requirement put forward by MCL. These two institutes were NIAM Odisha and CIPET (Central Institute of Plastic Engineering) Bhubaneswar.

NIAM visited MCL office and discussed the matter. During discussion, we could sense that NIAM was not having the required wherewithal and resources to conduct such project. They told to submit the proposal. However no proposal has been submitted by them.

CIPET Bhubaneswar visited MCL office and discussed the matter. Based on the discussion held, they first submitted a draft proposal and made a presentation. As suggested by CSR deptt, CIPET submitted a detailed proposal named- 'Proposal for Multi Skill training program "Handyman"'. It was found that the proposal by CIPET was more authentic and suited to the requirement of MCL.

About CIPET:

CIPET is an Institution established under the Ministry of Chemical & Fertilizers, Govt of India. CIPET has its training centres at 36 locations all over India including the one at Bhubaneswar. At Bhubaneswar, they have two centres:

1. CIPET IPT at Patia: Established in 1986. It offers B Tech and M Tech courses
2. CIPET CSTS Mancheswar: The erstwhile Master Craftsman Training Institute of Govt of Odisha was taken over by CIPET in 2005 through an MoU. Since then, CIPET has developed this campus with extended facilities and manpower and introduced new courses. the training/courses imparted in this campus are as under:
   a) ITI
   b) Diploma in Plastic Technology
   c) Specialized job oriented skill development training programs
   d) National Skill Qualification Framework (NSQF) module

The skill development programmes conducted at CIPET centres are National Skills Qualifications Framework (NSQF) aligned and approved by National Skills Qualifications Committee (NSQC).

Project cost:

The estimate submitted by CIPET was scrutinized and it was decided to take up the following variant of Training Programme**:**

Intake		24 nos
A	Training Cost of 6-months training for 24 candidates	23,05,920
B	Cost of 'Toolkit' & other equipment for 24 candidates. Cost includes Escalation @5% and Administration charges @10%.	12,06,458
C	Total cost for 24 candidates (=A+B)	35,12,378
D	GST @18% (=C*1.18)	6,32,228
Total cost of the Project (=C+D)		41,44,606

Modalities of payment:

a) 80% of the project cost to be released with sanction order (i.e. before commencement of the training program).
b) 20% after completion of training and placement of minimum 70% candidate.

In this regard, it is to mention that although the project is conceptualized as trained youth starting his micro-entrepreneurship by remaining in his home, if any candidate wants to avail placement facility, CIPET guarantees placement for 70% candidates.

Selection of Candidates:

a) It will be done jointly by CIPET and MCL on the basis of eligibility criteria as per guidelines of CIPET. The figure of 24 nos was based on the premise that 2 candidates will be selected from each Area. However, Basundhara and Mahalakshmi Areas are showing keen interest in this project. We may go for all candidates form these two areas. Final decision will be taken once the proposal is approved and the circumstances prevailing/priorities on offer at that point of time are assessed.
b) Minimum qualification of trainees will be 10^{th} pass above.
c) Age limit of trainees will be 18 to 32 years.
d) It will be a residential training programme

CSR Admissibility: The project intends to impart 'Handyman' (Multi skill) training to rural youth with the objective that the trained youth will start their own micro-business to earn a sustainable livelihood. **Livelihood enhancement projects (Clause no-II).**

Beneficiary of the Project: 24 youths from mining command areas

Sub: Approval of project proposal "'*Handyman*', a multi-skill development programme for youth as a CSR initiative of MCL"

Dear Sir,

We are pleased to inform you that the project proposal of 'Handyman skill development' has been approved by the Competent Authority of MCL as a CSR initiative. The approved project cost is Rs. 41,44,606/-. Project entails imparting 6-months residential handyman (multi-skill) training at CIPET Centre Bhubaneswar to 24 rural youth selected from MCL command areas. The training module will cover electrical, welding, plumbing and agricultural tools. Post-training, toll kit will be given to each candidate. The write-up, estimate and other relevant documents are enclosed herewith which are being sent in soft form as well.

Funding will be made in two instalments:

1. 80% of the project cost to be released with sanction order (i.e. before commencement of the training program)
2. 20% after completion of training and placement of minimum 70% candidates (if the candidates opt for placement)

To take the matter forward, following actions are required:

1. An MoU is to be executed between MCL and CIPET Bhubaneswar. You are requested to draft an MoU which is in line with PSUs including Coal India Limited, and send to MCL where it will undergo scrutiny/modification, legal vetting and competent approval. Final draft MoU will be signed by both the parties after your consent.
2. Selection of candidates: We are contemplating candidates form Basundhara coalfields in Sundargarh district. A framework devised at your end may be communicated to us so that joint arrangements can be made for selection of candidates.
3. You are required to submit filled up 'E-mandate' form containing details of bank account for crediting the payments. This procedure is as per the payment terms of MCL. For this, you are requested to send following documents in original:
   a) Enclosed e-mandate form should be filled in all respects with counter signature of the concerned Bank.
   b) A cancelled cheque of the concerned bank account with authorized signature (Original).
   c) Self-attested copy of Pass book page showing account details
   d) Self-attested copy of PAN (Mandatory) with counter signature.

Genesis of the project:

Ministry of Coal called a meeting under the Chairmanship of Additional Secretary (Coal), on 16-05-2019 to review the progress of Skill Development works in coal companies. In the meeting, the Additional Secretary (Coal) gave impetus to include Skill Development in the CSR efforts. Contents of Minutes of the meeting relevant to the subject proposal are quoted as under:

"With a view to create self employment opportunities for youth as "Handyman", a multitasking module of training was proposed in which a person is trained in several skills required at local level such as electrician, plumber, motor/pump repair, basic home appliances repair & maintenance, mobile repair etc. A team of two or three such "Handyman" can easily sustain themselves in local area of about 15-20 Sq. Kms.

The training material should include start-up kits so that the trained youth can straight away begin practicing the skills acquired."

All the subsidiaries were instructed to take necessary actions for implementation of the "Handyman" project.

Ideation:

MCL initiated the action process by searching and looking for various specialised agencies who are specialists in imparting skill development trainings. CSR department conceptualised the 'Handyman' idea and prepared an elementary Conceptual plan. The idea was that the rural unemployed youth of peripheral villages should be imparted self-employment oriented multi-skill training by an established training facility. Each individual should be trained in several skills unlike the traditional training programs which are confined to imparting training in a single trade. The trades selected for the purpose should meet the local requirements. To this objective, we decided to include the trades of Electrical, Mechanical, Welding and Agriculture equipments. Repair of home appliances and mobiles was kept excluded from the purview for two reasons, firstly because we wanted the youth to be trained on hardware skill rather than soft skills which are available in plenty, and secondly because the trades selected in the combo are inter dependent, inter related and almost collectively exhaustive. The trained youth will be provided with tool kit. CSR deptt prepared a Concept Note-cum-Approach Paper for 'Handyman' project.

Brief of Handyman Concept Note:

Our mining projects are located in the rural areas of Angul, Jharsuguda and Sundargarh districts. There is a large population of displaced, to-be-displaced, and project effected communities residing in different locations surrounding the 'Areas'. MCL is in regular interaction with these communities for land acquisition, resettlement & rehabilitation and for acquiring Forest land.

The community has highest level of expectations from MCL on various fronts. While many get regular employment, there are some who doesn't fall within the scope of eligibility. They don't get regular employment, although they too are compensated as per the rules.

Against this background, MCL is contemplating to train and equip rural youth from among the surrounding settlements for skill based self-employment/ livelihood program. The concept runs as under-

'Handyman':
Unemployed youth (24 nos.) will be selected from different Areas. They will be imparted multi-skill training in electrical, welding, plumbing and repair-maintenance of agricultural tools to emerge as a 'Handyman' (i.e. the one who comes *handy* in providing multi-skilled services). Once trained, they will be given tool kit so that they can straight away begin practicing the skills acquired. Then they will start their own micro-entrepreneurship by providing repair-maintenance (R&M) services by remaining in their home villages. Their home will be the call centre from where they will attend the calls and proceed to attend the call of duty. Agricultural tools have been added with a specific motive. They should be imparted the basic skills of repair and maintenance of domestic/agricultural pumps, submersible pumps, agricultural tools, tractor driven equipments like tillage, plough, cultivation and sowing equipments.

So, the concept intends to impart **'Handyman' (Multi skill) training** to rural youth with the objective that the trained youth will start their own micro-business to earn a sustainable livelihood. The catchment area for each Handyman will be the rural and semi-urban settlements surrounding his residence. They have the option to go to farther place also as per their choice.

Search for training agency:
From the above perspective, intervention of the training agency will be on following lines:

1. Designing tailor made 'Handyman' training module covering Electrical, Welding, Plumbing and Agricultural tools, keeping in mind the typical requirements that usually arise in rural settlements. It is to be kept in mind that the settlements being referred are, for obvious reasons of the presence of MCL and other industries, are progressive and gradually converting into semi-urban settlements and their socio-economic condition is on the rise.
2. Submitting the Project report covering following:
   a) Training module with financial break-up of training
   b) Estimate break-up of tool kit with list of tools
   c) Estimate break-up of three wheeler with equipments

A number of Organizations/ Institutes were contacted and then based on the response, the Idea alongwith the Concept note-cum Approach paper was shared with two skill training agencies who agreed to propose a training module as per the requirement put forward by MCL. These two institutes were NIAM Odisha and CIPET (Central Institute of Plastic Engineering) Bhubaneswar.

NIAM visited MCL office and discussed the matter. During discussion, we could sense that NIAM was not having the required wherewithal and resources to conduct such project. They told to submit the proposal. However no proposal has been submitted by them.

CIPET Bhubaneswar visited MCL office and discussed the matter. Based on the discussion held, they first submitted a draft proposal and made a presentation. As suggested by CSR deptt, CIPET submitted a detailed proposal named- 'Proposal for Multi Skill training program "Handyman"'. It was found that the proposal by CIPET was more authentic and suited to the requirement of MCL.

About CIPET:

CIPET is an Institution established under the Ministry of Chemical & Fertilizers, Govt of India. CIPET has its training centres at 36 locations all over India including the one at Bhubaneswar. At Bhubaneswar, they have two centres:

1. CIPET IPT at Patia: Established in 1986. It offers B Tech and M Tech courses
2. CIPET CSTS Mancheswar: The erstwhile Master Craftsman Training Institute of Govt of Odisha was taken over by CIPET in 2005 through an MoU. Since then, CIPET has developed this campus with extended facilities and manpower and introduced new courses. the training/courses imparted in this campus are as under:
   a) ITI
   b) Diploma in Plastic Technology
   c) Specialized job oriented skill development training programs
   d) National Skill Qualification Framework (NSQF) module

The skill development programmes conducted at CIPET centres are National Skills Qualifications Framework (NSQF) aligned and approved by National Skills Qualifications Committee (NSQC).

Project cost:

The estimate submitted by CIPET was scrutinized and it was decided to take up the following variant of Training Programme**:**

	Intake	24 nos
A	Training Cost of 6-months training for 24 candidates	23,05,920
B	Cost of 'Toolkit' & other equipment for 24 candidates. Cost includes Escalation @5% and Administration charges @10%.	12,06,458
C	Total cost for 24 candidates (=A+B)	35,12,378
D	GST @18% (=C*1.18)	6,32,228
Total cost of the Project (=C+D)		41,44,606

Modalities of payment:

a) 80% of the project cost to be released with sanction order (i.e. before commencement of the training program).
b) 20% after completion of training and placement of minimum 70% candidate.

In this regard, it is to mention that although the project is conceptualized as trained youth starting his micro-entrepreneurship by remaining in his home, if any candidate wants to avail placement facility, CIPET guarantees placement for 70% candidates.

Selection of Candidates:

a) It will be done jointly by CIPET and MCL on the basis of eligibility criteria as per guidelines of CIPET. The figure of 24 nos was based on the premise that 2 candidates will be selected from each Area. However, Basundhara and Mahalakshmi Areas are showing keen interest in this project. We may go for all candidates form these two areas. Final decision will be taken once the proposal is approved and the circumstances prevailing/priorities on offer at that point of time are assessed.
b) Minimum qualification of trainees will be 10^{th} pass above.
c) Age limit of trainees will be 18 to 32 years.
d) It will be a residential training programme

CSR Admissibility: The project intends to impart 'Handyman' (Multi skill) training to rural youth with the objective that the trained youth will start their own micro-business to earn a sustainable livelihood. **Livelihood enhancement projects (Clause no-II).**

Beneficiary of the Project: 24 youths from mining command areas

Project 'Handyman'

Project ideation: 'Handyman' is the one who comes *handy* in providing multi-skilled services. The idea is that rural unemployed youth should be imparted self-employment oriented multi-skill training by an established training facility. Each individual should be trained in several skills unlike the traditional training programs which are confined to imparting training in a single trade. The trades selected for the purpose should meet the local requirements. To this objective, trades of Electrical, Mechanical, Welding and Agriculture equipment have been included. The trained youth will be provided with tool kit. Each candidate will be given a tool kit worth Rs. 40,336/- on completion of training. Once trained, they will start their own micro-entrepreneurship by providing repair-maintenance (R&M) services by remaining in their home villages. Their home will be the call centre from where they will attend the calls for which a Mobile app will be developed.

Agricultural tools have been added with a specific motive. Thanks to the enhanced credit facilities, farmers are progressively adopting technology intervention and mechanical implements in their farming framework. With growing numbers of sellers & buyers, market of agricultural tools/ equipment is expanding, But the same is not true when it comes to repair-maintenance service. In 'Handyman' project, the candidate will be imparted basic skills of repair and maintenance of domestic/agricultural pumps, submersible pumps, agricultural tools, tractor driven equipment like tillage, plough, cultivation and sowing equipment. With them taking the position, a farmer need not go for a long haul to the dealer/ showroom located far away. 'Handyman' will be his R&M service provider available at his doorstep.

An underlying principle of the project is that the youth will start earning by remaining in his village. He is having parents and siblings to look after, agriculture land to work, and livestock to take care. Add to this, there is a socio- cultural bonding with the community. All these factors stop him to move away from the village. *Handyman* concept takes in to account all these factors. The project envisages selection of trained youth in a distributive manner across the entire rural areas such that each candidate has a span of command around his home where he can render the services and intrusion of operational area is avoided.

So, the concept intends to impart **'Handyman' (Multi skill) training** to rural youth with the objective that the trained youth will start their own micro-business to earn a sustainable livelihood. The catchment area for each Handyman will be the rural and semi-urban settlements surrounding his residence. They have the option to go to farther place also as per their choice.

Executing Agency: CIPET (under Ministry of Chemical & Fertiliser, GoI). 6-months residential training. CIPET to take care of boarding, food, uniform etc. Criteria 10^{th} pass. Selection will be done by CIPET. Course curriculum designed/ tailor made by CIPET Bhubaneswar in consultation with Agri-University. Candidates will be trained at CIPET Bhubaneswar where it runs an ITI and a Polytechnic. CIPET has tied up with Odisha University of Agricultural & Technology to impart training on Agri tools.

Cost estimate:
Rs.41, 44,606 for 24 candidates @ Rs. 1,72,692/- per candidate

Meeting with Siamal villagers

D. General Manager, BA Sri S. K. Jha Saheb briefed the villagers about the transfer of the candidates from Orient Area to Basundhara Area/ML Area for construction of houses at Chhatenpali R&R site.

Area devided into 2 areas, Basundhara & Mahalaxmi Area.

objective of meeting - For opening of the Siamal OCP. Our MCL CMD consider the grievance of the villagers & made the order for transfer from Orient Area to BA/ML Area MCL given employment & kept in the local Area.

All have given consent to construct houses at R & R site but ~~did~~ till date no body have constructed the houses.

1. Opening of Siamal OCP is a must.
2. Mgmt has hope over the people, that they would construct the house.
3. All facilities has been given at the R & R site - Chhatenpali.

Sri Rabiratna Patel, village chief Siamal said that Mgmt has done every thing for the villagers, now it the term of villagers to co-operate to open the Siamal OCP. He ~~he~~ said that for retention of transfer of 67 person he had met to GM, BA & CMD MCL & Mgmt has done their ~~job~~ work so we should do our work for opening of the mine.

1- Those who will take cash for plot
leave may give their options.
2- Every body will construct houses
of MCL will give house loan from any
fund.
3-

Starting to construct your houses, Immediate
and complete/Shift up to Sraban purnima/Rakhi
bandhan, otherwise you all are transfer to
other area., It is the advice/order of C.M.D.

JUSTIFICATION FOR LOCATING SIARMAL OPENCAST PROJECT IN FOREST LAND.

The Siarmal & Siarmal Extension and Banapatra blocks are located in north-western central part of lb River coalfield of Orissa, known as Gopalpur sector. This coalfield is the southern middle part of lower Gondwana basin of Son Mahanadi Valley and occupies an area of about 1460 sq.km. with potential coal bearing area of around 1050 sq.km.

Siarmal OCP is an XI Plan project of MCL. The proposed mine area lies towards south of Basundhara West OCP (8.0 MTY) on the southern side of Basundhara river. Basundhara West OCP is an ongoing project. Sanctioned Kulda OCP (10 MTY) lies to the east of proposed mine. Kulda OCP was sanctioned in January, 2005 by Govt. of India. Coal production from this mine has been 10 Mt in 2016-17. Rampia/Dip Extension of Rampia Block lies to the west of proposed Siarmal OCP (40 MTY). A sum total of 1866.83 million tonnes net proved geological reserves for the coal seams viz. 18 BOT to LAJ-IV have been estimated over an area of 14.67 sq.km in combined Siarmal & Siarmal Extension and Banapatra blocks.

The coal seams in both the blocks under consideration for the project (Siarmal & Siarmal Extn. and Banapatra) are thick and occur at shallow to moderate depth. The entire coal reserves of 1866.83 Mt have high quarriable potentiality. Considering the coal demand on MCL and quarriable potential of the blocks, formulation of the present opencast mine for normative capacity of 40.0 MTY is justified.

The total area of the project is 2290.449 Ha out of which the total forest land is only 349.709 Ha and the total estimated extraction of coal during mine lease period is 1547.82 MT. At an estimated extraction of 50 MT per annum, the life of the mine is envisaged to be 49 years. The total estimated coal reserve in the forest land is 236.3 MT and that of non-forest land is 1311.51 MT. Due to uneven distribution of forest land spread over 6 villages, the extraction of coal in non-forest area using mechanization needed for extraction of 50MTY is not possible without the use of forest land. The distribution of forest land vis. a vis. non forest land in hectares, village-wise is tabulated below:

Since coal is a natural resource occurring in seams over a limited area depending upon the geology, the question of exploring alternate sites for mining does not arise. Siarmal OCP consisting of Siarmal, Siarmal Extension and Banpatra block is a huge coal reserve whose extraction will enable India to be self-reliant in its energy demands reducing coal imports. Thus, the location of the site for coal mining operation fully depends upon nature's deposit of minerals and geological structure of the coal seams and hence the question of exploring alternate site for the purpose does not arise.
