To,
Deputy Conservator of Forest
Forest Division,
Godhra-Panchmahal

(Online Proposal No. FP/GJWATER/152269/2022)

Subject: Diversion of 0.80 ha Reserve Forest for the construction of New Filter Plant, R.C.C. U/G Sump and Pump House for drinking water supply facility in 20 villages of Godhra Taluka, Village- Gollav, Taluka- Godhra, District- Panchmahal in favour of Executive Engineer, Public Health Works Division Godhra

Reference: (1) Government of India, Ministry of Environment, Forest & Climate Change Integrated Regional Office, Gandhinagar Letter No.FC-6/GJB-20/2023-GNR/1110166/2024/IROR-GNR/1/64141/2024 Dt.01.02.2024

With Reference to the above mentioned subject, the department planned to constructed a new filter plant, R.C.C U/G Sump, R.C.C. ESR and Pump House @ Gollav, Ta.Godhra, Dist. Panchmahal. Proposal for forest land submitted, for which points raised by Regional officer, Gandhinagar vide letter under reference. Compliance for that points are as below.

No.	Point	Compliance
1.	The proposal includes after examination it is observed that proper justification for locating the project in forest land is not provided with the proposal. Instead of providing justification for locating the project on forest land, necessity of the project is elaborated. In this regard, state government is requested to provide proper justification for locating the project on the forest land. Accordingly, It is requested to furnish/upload the above-mentioned information for further consideration of proposal.	As water supply network designed in gravity concept and for appropriate Reduced level of ground required. And this project is designed considering this location only & hydraulic network designed accordingly. Also, the land required for the project is for the construction of water treatment plant, Sump, ESR and pumping station, where convenient approachability required with proper road connectivity. For that all effort made to get Government land or private land with proper road connectivity but no suitable land available for the project. Government land with suitable reduced level available not having road connectivity, Also private land owner not willing to give land for construction of approach road connecting Government land hence there is no option of land except acquire Forest land in favour of project. Hence necessity arisen of forest land.

So, looking to this, it is request to take further necessary action. So that water can be delivered to the villages included in the scheme by completing the work within the time frame.
