

## BREIF REPORT

SajhaSamaj, is one of the oldest Government Registered Samaj which was formed on 1997 at Lower Samdur, Ranipool, East Sikkim, Gangtok. The main motive for establishment of the Sajhasamaj was to bring together all the people of the locality under one roof for the betterment, upliftment of the members of the samaj without any discrimination of caste, creed and religion.

Since, samaj members have been running smoothly till date the main problem the members are facing now a days are the increasing members of the samajas a result they are facing difficulty to adjust together at a rented place together at a time eg:- during monthly meeting and other social activities such as Marriages, Death Anniversary, Pujas etc. As there is no permanent place to all these social activities. Therefore, with the purpose we set up to find an appropriate place to build up a community hall for the smooth running of our Samaj.

As we are settled in an urban area private land was not available for the given purpose. Fortunately, khasmal reserve forest land was available nearby to our village feasible to carry out all the programmes undertaken for the welfare of the village.

This land would meet our purpose to build our community hall including kitchen, store room, office and a hall .
