### ANNEXURE-A

#### PROJECT DETAIL

Construction of 66 KV line from 66 KV G/S/S Ramuwala to 66 KV G/S/S Charik SC/DC Tower line in favour of PSPCL is a part of Transmission Networks System which is being developed for the industrial, economical and overall development of the region by constructing the prestigious line. The line is the part the transmission System being developed for minimizing line losses and improving reliability of quality supply. The said Construction of 66 KV line from 66 KV G/S/S Ramuwala to 66 KV G/S/S Charik SC/DC Tower line is being constructed in Distt. Moga. The forest case being submitted is for the Transmission Line passing through the FEROREPUR Forest Division of the State of Punjab.

Power Sector in India has played a very vital role in Socio-Economic development. The fast growth of industrial and agriculture sectors in the country is mostly attributable to the rapid improvement in Power Transmission Network recognizing the importance of Electricity for overall development of the Country. Govt. of India has taken keen interest in the development of Power Sector. With the result this sector has shown remarkable growth after independence. As a part of the process construction of 66 KV line from 66 KV G/S/S Ramuwala to 66 KV G/S/S Charik SC/DC Tower line in favour of PSPCL for meeting the overall development of this region. The construction of this line will greatly improve the supply reliability for agriculture and Industrial sector of this area. The total length of this line is 4.917 KMs. The entire route falls in the Forest area of Ferozepur Forest Division in Punjab State. The construction of said Transmission line is to be completed within a period of 6 months at an estimated cost of 1.35 crores. The details of the Transmission network being laid from 66 KV G/S/S Ramuwala to 66 KV G/S/S Charik SC/DC Tower line:-

### Justification of the Period for which the Forest land is Proposed for Diversion

As far as the concern of the period for which the forest land is proposed to be diverted (in years) for Construction of 66 KV Line from 66 KV G/S/S Ramuwala to 66 KV G/S/S Charik SC/DC Tower Line is mentioned as 50 years, it is brought to your kind attention that the transmission line is being constructed keeping in view the benefit of a large number of people of surrounding areas and its construction cost is almost Rs. 1.35 Crores that is a huge amount. So it is planned in such a manner that the transmission line remain at least for a period of 50 years. Such period of 50 years is not a permanent period. It may be decreased or increased as per the conditions and circumstances of that specific time (if necessary). The 50 years time period is the expected time span as some previous 66 KV Lines that were constructed in past are more than 50 to 100 years old.
