

## AFFORESTATION (CA) AND ANR FROM MANAGEMENT POINT OF VIEW

No suitable non-forest land is available for taking up compensatory afforestation under Bishnupur Forest Division, Bishnupur. As such, suitable degraded forest land have been identified at 1 (one) patch under the Division as shown below:

Sl. No	Division	Name of village/Plantation site	Area (Ha)	Compt. No
1	Bishnupur Forest Division	Parengba Khullen	10	No. 20 of Leimaram Block
2	Bishnupur Forest Division	Parengba Khullen	0.404	No. 20 of Leimaram Block
	Total		10.404	

The forest type of the area falls under Sub-Tropical Semi-Evergreen and Moist deciduous Forest. Tree species such as *Schima wallichii*, *Quercus serrata* are found in these area. A such, tree species namely *Gmelina arborea*, *Terminalia myriocarpa*, *Arthocarpus intergrefolia*, *Quercus serrata*, *Parkia roxburghii* etc. will be suited for the plantation in the areas.

The identified CA site can be managed effectively because of its proximity to the village. Hence, the area identified is best suited for taking up of Compensatory Afforestation(CA) and ANR.
