PART-III

(To be completed by the Officer -in- Charge of the National Park/ Sanctuary completed and submitted to the Chief Wild Life Warden or officer authorized by him in this behalf within 30 days of the receipt of PART - II)

1	Date of receipt of the PART II	
2	Total Area (Ha.) of national park/sanctuary	1842.54 SqKm (184254 Ha)
3	Total area (Ha.) diverted from the NP/WLS so far for development purposes	19.440 Ha
4	List the past projects and the area (Ha.) diverted Name of Project Area Diverted Year of Diversion	Bharat Sanchar Nigam Ltd, (Erstwhile Udanti Forest Division, Gariyaband), 2.78Ha, Year 2009 Reliance Telecom (Erstwhile Udanti Forest Division, Gariyaband), 1.00 Ha, Reliance Telecom (Core-1,Udanti Sanctuary Erstwhile Udanti Division, Gariyaband), 0.51 Ha, 132KV Nagari-Indagaon (1" Stage Clearance Linear Project), 15.15 Ha,Year 2018
5	Positive impact(s) due to the diversion of area for the projects referred to in column 4 above Name of the Project(s) Positive Impact Scientific Basis of Assessment	Bharat Sanchar Nigam Limited, Reliance Telecom Projects were carried out to enhance and strengthen the telecommunication network in the area. 132KV Nagri-Indagaon Electricity Transmission Line aimed to improve the Electricity Network in the area and making electricity available to the remotely located households.
6	Negative impact/s due to the diversion of area for the projects referred to in column 4 above Name of the Project(s) Negative Impact Scientific Basis of Assessment	Bharat Sanchar Nigam Limited, Reliance Telecom Projects were underground Optical Fibre Cable Projects which lead to minimal impact on wildlife during Laying/Digging Phase. In 132 KV Electricity Transmission Line Project, the trees located within the RoW were being cutted for which the User Agency will be carrying out Compensatory Afforestation.
7	Management Plan Period Attach copy of the Management Plan/Management Scheme/ Recommendation of Chief Wildlife Warden	The existing Management Plan of UdantiSitanadi Tiger Reserve is from 2015-16 to 2025-26.
8	Management actions taken/ proposed to be taken in the whole Block/ Zone in which the proposed area is located.	No specific action is mentioned in the Management plan with respect to the diverted area.

9	Type of forest in which the proposed area falls.	Mixed Forest, Reserve Forest Area 0.828 Hectare
10	Location of the proposed area w.r.t. the critical/intensive wildlife management areas/ wildlife habitats (attach Map to scale).	Map Attached
11	List the likely POSITIVE AND NEGATIVE impact/s of the proposed project giving scientific and technical justification for each impact.	The positive impact will be the provision of all weather passage to the remote villagers, transportation and ease in execution of Government Schemes. Also, there is no tree felling involved in the project. The negative impact of the project with respect to wildlife is that increased transportation may lead to increased disturbance in future.
12	Provide COMPREHENSIVE details of the impact of the proposal in terms of Sections 29 and/or section 35(6) of the Wild Life (protection) Act, 1972 as the case maybe.	Not Applicable as no forest produce is being damaged , nor flow of water is being affected.
13	Whether the project authorities have ever committed violation of the Wild Life (protection) Act, 1972 or Forest Conservation Act, 1980. If yes, provide the EXHAUSTIVE details of the offence and the present status of the case. (Concealing or misrepresenting the facts will lead to rejection of the case in addition to any other penalty as prescribed under Law)	No violation of WPA,1972 and FCA, 1980
14	Have you examined the Project Appraisal document and the alternatives as provided in PART - II?	The User Agency has explored the alternatives to the proposed solution but those alternative Right of Ways will also be passing through the forest and wildlife area. The proposed area is the shortest and minimal in terms of impact on wildlife and Forest.
15	Have you examined the Bio diversity Impact Assessment Report?	Since, there is no threat to biodiversity, hence Assessment Report is not required
16	If Yes, please give your comments on the recommendations given in the report?	Not Applicable
17	Dates and duration of your field visits to proposed site.	29.03.2022, 30 minutes approx
18	Do you agree that the present proposal of diversion of NP/WLS area is the best or the only option and is viable.	Yes. The proposal is the best option.

19	Any other information that you would like to bring to the notice of the State Board for Wildlife, National Board for Wildlife or Standing Committee that may be relevant and assist in decision making.	No
20	Do you recommend the project. (Please provide full justification to support your recommendations)	Yes. The project is recommended on the fact that it will provide safe and emergency passage to the villagers and having minimal impact on the wildlife and forest area (except in the construction phase).
