

JUSTIFICATION FOR LOCATING PROJECT IN FOREST LAND

PROJECT NAME: Extension of Sewerage Scheme for Jorethang town and its surrounding areas in South Sikkim(Phase II).

PROJECT USER AGENCY: Public Health Engineering Department, Government of Sikkim.

Jorethang town is situated beside river Rangit which falls in South Sikkim. It is one of the important centre of business for the people of South and West district. Population and development of this town is increasing day by day, with the increase in the population, health and hygiene of the people is also important, therefore PHED Department has come up with this project to set up treatment plant for sewerage system in Jorethang. State Government is working on providing every town in the State with sewerage facility. Jorethang town is one of the towns having given a priority after State capital Gangtok for the same.

The project has been prepared after carrying out detailed survey. While taking up this project, utmost care would be exercised to see that the environment is not harmed and polluted

In this project, proposals have been kept for setting up of STP based on the Moving Bed Bio Reactor (MBBR) technology and construction of buildings for this MBBR technology provided with tanks and proper drains. The above proposals will help in proper disposal of sewerage resulting in clean surroundings.

The Project Authority:

Signature of the Head of Department & Seal:

(NAME IN BLOCK LETTERS): BINDESWARI PRASAD
