**PROPOSED CONSTRUCTION OF APPROACH ROAD TO MOPA  
AIRPORT PROJECT IN PERNEM TALUKA**

**NOTE OF JUSTIFICATION**

The Mopa Airport is an International Greenfield Airport having traffic potential of over 30 million passengers per annum. Besides, it has a cargo terminal and provision for city side development. The current village road will not be able to cater to the traffic envisaged. Therefore, a dedicated access controlled 6-lane approach road is planned to connect the Mopa Airport to the nearest National Highway. For this purpose three alternate alignments as approach road connectivity to Mopa Airport were considered. After taking into consideration the technical feasibility and impact on habitation, one alignment was finalized as this alignment has no habitation requiring rehabilitation. Accordingly, the said alignment has become a part of the EC granted for the project mentioned above.

Place: Porvorim
