**PROPOSED CONSTRUCTION OF APPROACH ROAD TO MOPA
AIRPORT PROJECT IN PERNEM TALUKA**

CERTIFICATE: COST BENEFIT ANALYSIS

This expressway is essential to connect the National Highway 66 to the Airport to cater to the airport traffic. Presently, the proposed airport site is connected with a village road which is insufficient to cater to the airport traffic of 4.4 million passengers per annum in first phase with an ultimate potential of over 30 million passenger per annum. Besides, the expressway will also be used for cargo movement as there will be exclusive cargo terminal at the airport. Thus, the proposed approach road in the form of expressway is highly beneficial for smooth movement of airport traffic.

Place: Porvorim

Date: 12-4-2021

(Dr. S. Shanbhogue)
Director
