**DETAIL NOTE ON THE PROJECT**

In this Project Laying Surface Water Pipeline. After surveying of the whole area, it is found that following Pipeline work are falling under forest land as there no other option for revenue land to lay below mentioned pipe line as per design criteria, so this scheme has been proposed 3.620 Hectare forest land required for the laying of 50613 m pipeline in forest area.

Water Supply in rural areas is one of the biggest problem , most of the peoples have not facility of drinking water , people of villages depended only on rainy water source , well pond, canal and river. After establishment of this project provide purified water for villagers and most of the rural area peoples will able to live better live hood, during the laying of pipe line will get generate employment of permanent 5 and temp 100 people, Cost of the Project is 188.65 cr. Considering the above facts it is found justified to lay pipeline in said area for supplying of purified drinking water without hindrances.
