

## OFFICE OF DY. CONSERVATOR OF FOREST, BUNDI

While Passing through the forest area the proposed Laxmipura-Dora-Dabi-Ranaji Ka Guda NH-12 will divide the protected forest lands into two parts. In there conditions land will become prone to encroachments, so for effective protection of remaining forest land on both the side of ROW pakki stone wall is required and also an underpass must be constructed to ensure connectivity of forest land wild animals in that stretch.
