S.NO. 1. JDA/ CI

Dated: 21/04/2022

To.

DCF (FCA)

Subject: - Construction and Renovation of Machia Fort and construction of approach road from Machia Biological Park to NH via Machia Fort at Jodhpur, Rajasthan

Reference: - Clarifications for proposal in the light of observation received from DCF on date 7-4-2022

In the light of your observation "The approach road proposed to connect Machia Fort to NH is an additional construction proposed on forest land. And since there is already sufficient road connectivity for Machia Biological Park from the city side, the proposed segment of the road from Machia Fort to the NH may be avoided and approach road from Machia Biological Park to the Machia Fort May be strengthened. The road proposed to the NH will cause unnecessary disturbance to the environment and fragment the pristine desert forest ecosystem further."

Jodhpur Development Authority Revised the forest diversion proposal and decide to apply forest diversion for existing connectivity from city side approach from machia Biological park to machia fort and cancelled the proposal for the segment form machia fort to NH.
