PROJECT NOTE

Maharashtra State Electricity Transmission Co. Ltd., Plans to construct and operate 132 KV D/C Lakhandur to Morgaon (Arjuni) D/C Transmission line to interlink sub/stn. at 132 KV Lakhandur & 132 KV Morgaon (Arjuni). This transmission belt is very essential to construct the said line in view of zero loads shedding to be implemented w.e.f. 2013. This transmission line is sanctioned vide MBR No. 34/4 dt. 04/10/2008 with an estimated cost of Rs. 4153.62 Lakhs. (copy enclosed)

Looking to the existing condition of power generation units and the present power requirement in Maharashtra state, the related work are being taken up and MSETCL has decided to improve the supply of power requirement by constructing new power generation units at Koradi, Khaparkheda, Chandrapur, Paras & Parli in Maharashtra State.

To maintain the uninterrupted and reliable power supply, it is decided to interlink these power generation units by laying of 400, 200 & 132 KV EHV transmission lines. The survey work of these transmission lines has been already completed.

The proposed scheme of construction & laying of 132 KV D/C transmission line is also one them. This work includes interlink of transmission line from Chandrapur, Koradi (Nagpur) & Khaparkheda Power station.

The route of this transmission line as proposed by MSETCL (copy of Index & Village Map attached) is only possible and to achieve this proposed line of total route length is 12.745 Kms, out of this total length 1.751 Km length is passing through unavoidable Protected & Zudpi forest land of Bhandara district.
