

Area Calculation

ENTRY to Petrol Pump Area = Polygon (A B A1) + (B B1 A2 A1) = (0.00376+ 0.01884)Ha

Island Separator between Entry and Exit = Polygon (B1 C1 D2 A2) = 0.01884Ha

Exit from Petrol Pump Area = Polygon (C1 C D1 D2) +(C D D1)
= (0.01884+0.00376)Ha

Total Forest Land Area Proposed for diversion for proposed HPCL Petrol Pump

= (0.00376+ 0.01884)Ha+0.01884Ha+(0.01884+0.00376)Ha
= 0.06404Ha
