**DIVERSION OF 0.0750 HA. OF FOREST LAND FOR CONSTRUCTION OF
PARKING PLACE AT DALHOUSIE, DISTRICT CHAMBA, (H.P.)**

FILE NO. : **FP/HP/Others/149727/2021**
DATE OF PROPOSAL :

**ALTERNATE SITES CONSIDERED TO MINIMISE THE USE OF
FOREST LAND FOR CONSTRUCTION OF PARKING PLACE NEAR SUBHASH CHOWK
AT DALHOUSIE IN TEHSIL DALHOUSIE, DISTRICT CHAMBA**

ALTERNATIVE-I

The construction of Parking Place near Subhash Chowk is situated in Khasra No. 1015/1, Mohal Moti Tibba, Tehsil Dalhousie, District Chamba. The area proposed for diversion is 0.0750 hectare of forest land. The area proposed is barren land and involves felling of 8 number of trees.

Feature considered:

- Alignment of the proposed project is barren land and suitable for the construction of Parking Place.
- Forest land involved to the tune of 0.0750 Hectares.
- Less disturbance to the stable slope & green cover.
- Felling of 8 number of trees is involved

ALTERNATIVE- II

The construction of Parking Place near Subhash Chowk is situated in Khasra No. 994/1 Mohal Moti Tibba, Tehsil Dalhousie, District Chamba. The area proposed for diversion is 0.0800 hectare of forest land. The area proposed for diversion involves felling of 20 number of trees.

Feature Considered:

- Forest land involved to the tune of 0.0800 hectares.
- The area proposed for the construction of Parking is very steep and requires the construction of retaining wall, which will add to the cost of the Project.
- A lot of trees i.e. 20 number of trees to be cut resulting into decreasing forest cover in this area.

(41)

ALTERNATIVE- III

The construction of Parking Place near Subhash Chowk is situated in Khasra No. 1016/1 Mohal Moti Tibba, Tehsil Dalhousie, District Chamba. The area proposed for diversion is 0.0987 hectare of forest land. The area proposed for diversion involves felling of 24 number of trees.

Feature Considered:

- Forest land involved to the tune of 0.0987 hectares.
- The proposed area has loose strata so the proposal of construction of Parking Place in this area is difficult which is vulnerable to landslides.
- The proposal involves felling of 24 number of trees to be cut resulting into decreasing forest cover in this area.

Keeping in view all the above three alternative, the alternative- I, which is more suitable and environmental friendly, has been finally adopted.
