REPORT

This proposal has been formulated to provide road link to substantially backward area situated in a beautiful valley. It is situated in Tehsil Sujanpur Distt. Hamirpur (HP). This proposed road bifurcates from Hamirpur to Sujanpur road at RD 8/500 and leads to village Swahal.

This is the proposed road from Bharmeli to Village Swahal. At present mule transport is only mode available for transporting the goods etc, the area is quit rich in the production of cash crops and agriculture production such as Maize potato rice & seasonal vegetable and mainly apple etc. The land is very fertile. But heavy cost of transportation for export of surplus production and different marketing position restrain people from taking farming in a whole hearted way as such their living standard is also poor.

The construction of this road shall increase the economy of the area with the sufficient cheap and quick transportation of possible agriculture produce easy and extended marketing facilities more over availability of emergency medical help will also improve. With increased economic activity the overall living standard of the people shall also improve quickly.

Thus the construction of this motorable road is in overall public interest and demand.

Period: One year subject to availability of fund.

Mode of Execution: Departmentally/ Through Contractor.

JUSTIFICATION FOR THE LOCATING THE PROJECT IN FOREST AREA

The road has been already been constructed, therefore three different alignments cannot be examined at this stage. Total forest land required for construction of this road is 0.2534hectare which is the barest minimum. There is no private land available for the construction of this road. The construction of this road involves minimum habitation. This road alignment serves maximum habitation. This road is not a part of National Park, wild life sanctuary, biosphere reserve, tiger reserve, elephant corridor etc and also in the protected archaeological/ heritage site/ defense establishment or any other important monument is located in the area. The area does not involve any rare/endangered flora-fauna.

Hence keeping in view of the forest land proposed for diversion is justified and the barest minimum.
