

CHECK LIST SERIAL NUMBER :-04

Detail of Note Project**Sub: Collage of Horticulture & Forest Neri Hamirpur**
Proposal No. FP/HP/Others/38616/2019

The proposed diversion of 22.1041 ha. Forest land is c/o College of Horticulture & Forestry Neri Hamirpur H.P.. The land is adjoining to the existing college of Horticulture & Forestry which has insufficient land and this land is required for construction of building for the College, students Hostels, creation of amenities center building and gymnasium, playground for the students, besides, part of land shall be utilized for experimental plantation of Horticulture and Forestry plant. Horticulture has been defined as the culture of plants for food, comfort and beauty. A more precise definition can be given as it also includes plant conservation, landscape restoration, soil management, landscape and garden design, construction and maintenance, and arboriculture. In contrast to agriculture, horticulture does not include large-scale crop production. Horticulture apply their knowledge, skills, and technologies used to grow intensively produced plants for human food and non-food user and for personal or social needs. Their work involves plant propagation and cultivation with the aim of improving plant growth, yields, quality, nutritional value, and resistance to insects, diseases, and environmental stresses. They work as gardeners, designers, and technical advisors in the food and non-food Horticulture even refers to the growing of plants in a field or garden
