Subject: Allocation of Chakla coal block in the State of Jharkhand for captive mining of coal by M/s Essar Power Ltd., for their 1000 MW power plant in Latehar, Jharkhand.

Sir,

I am directed to refer to the request of M/s. Essar Power Ltd., for allocation of coal block in the State of Jharkhand and to state that the request of the company has been considered by the Central Government and it has been decided to allot Chakla coal block in CCL command area to M/s. Essar Power Ltd., to meet the coal requirements for their 1000 MW power plant in Latehar, Jharkhand. This allocation is in pursuance of the provisions contained in Section 3(3)(a)(iii) of the Coal Mines (Nationalization) Act, 1973 and subject to the following conditions :-

- i) The allocation of the Chakla coal block to M/s Essar Power Ltd. has been made to meet the coal requirement of their 1000 MW power plant in District Latehar, Jharkhand.
- ii) The block is meant for captive use in their own specified end use project i.e. power generation. The coal produced from the block shall not replace any coal linkages given to M/s. Essar Power Ltd. by the Coal India Ltd./its subsidiary and/or by the Singareni Collieries Company Ltd., without prior permission of this Ministry.
- iii) Middlings generated in the process of washing the coal shall be used for power generation in their own power plant i.e., the useable middlings/rejects generated during beneficiation shall be used captively by the allocatee. The modalities of disposal of surplus coal/middlings/rejects, if any, would be as per the prevailing policy/instruction of the government at the relevant point in time and could also include handing over such surplus coal/middling/rejects to the local CIL subsidiary or to any person designated by it at a transfer price to be determined by the Government.
- iv) Coal production from the captive block shall commence within 36 months (42 months in case the area is in forest land) in case of open cast mine and in 48 months (54 months in case the area falls under forest land) from the date of this letter in case of UG mine. The end-use project schedule and the coal mine development schedule should be modified accordingly and submitted to

the Ministry within 3 months from the date of this letter. A copy of the indicative milestone chart is enclosed. AN-1 (P-2)

- v) The company shall buy geological report from CMPDIL within six weeks from the date of this letter.
- vi) The company shall submit a bank guarantee for Rs. 8.79 crores (equal to one year's royalty amount based on mine capacity of 2 mtpa assessed by CMPDIL, grades of coal from E to G grades and the weighted average royalty @ Rs. 66 per tonne) within three months from the date of this letter. Subsequently upon approval of mining plan the Bank Guarantee amount will be modified based on the final peak/ rated capacity of the mine.
- vii) The company shall submit a mining plan for approval by the competent authority under the Central Government within six months from the date of this letter.
- viii) The progress of the mine will be monitored annually with respect to the approved mining plan, which will mention the zero date. In case of any lag in the production of coal, a percentage of the bank guarantee amount will be deducted for the year. This percentage will be equal to the percentage of deficit in production for the year with respect to the rated/peak capacity of the mine, e.g., if rated/peak capacity is 100, production as per the approved mining plan for the relevant year is 50 and actual production is 35, then $(50-35)/100 \times 100 = 15\%$ will lead to deduction of 15% of the original bank guarantee amount for that year. Upon exhaustion of the Bank Guarantee amount the block shall be liable for de-allocation/cancellation of mining lease. M/s. Essar Power Ltd. shall ensure that the Bank Guarantee remains valid at all times till the mine reaches its rated capacity or till the Bank Guarantee is exhausted.
- ix) No coal shall be sold, delivered, transferred or disposed of except for the stated captive mining purposes, and except with the previous approval of the Central Government.
- x) Mining of coal from the allocated captive coal block shall be carried out in accordance with the applicable Statutes/Rules/Orders/Directions governing the mining of coal in the country.
- xi) Those of the above conditions relevant at the time of grant of mining lease shall be included as additional conditions in the mining lease in addition to any further conditions imposed by or agreed to by the Central Government.
- xii) The State Government at the time of seeking previous approval for the grant of mining lease shall submit a draft of the mining lease containing the above relevant conditions for vetting by the Central Government. The final mining lease shall be as vetted/modified by the Central Government. Any deviation from the vetted/modified draft shall render the mining lease deed *ab-initio* null and void and without effect.

2. Allocation / mining lease of the coal block may be cancelled, inter-alia, on the following grounds :-
