

Annexure-4

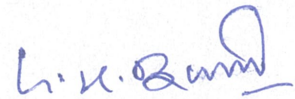

Detail Note On Project

Vide office Memorandum from ministry of Power dated 13.01.2022 for the implementation of transmission network expansion in Gujarat to increase ATC from ISTS: PART B for the supply of 4000MW power to the Gujarat as well as in belt of south Gujarat has been assigned to POWERGRID.

Approval as required under section 68 of electricity act 2003 has been obtained from the Ministry of Power, Govt. of India vide letter 04.02.2022.

The subject transmission scheme involves implementation of Navsari (New) (South Gujarat) (GIS) - Padghe (GIS) 765 kV D/c transmission line in Gujarat under regulated tariff mechanism (RTM) and connectivity to national / State Grid. Implementation time frame of 765kV D/C New Navsari – Padge transmission line under above project is June, 2023.

This line is passing through approximately 72 villages of Navsari and Valsad District in Gujarat. During the construction of this project, approximately 200 persons will get benefited and after completion of project approximately 15 Nos of regular staff is required for maintenance work. After completion of the project there will be considerable augmentation in power availability in State and Nation which will directly contribute to industrial and rural growth. Increased power input will have direct impact on growth of economy in the State as well as Nation.
