Justification Letter for Forest Land Diversion

1. The project for Construction of Road from "Lango to Charkoo" under Package No: JK14-444 is sanctioned in Phase-X under PMGSY. The proposal of the project is to Construct the road that shall benefit many intermittent habitations such as "Chargat" having 420 Souls and the target habitation is "Charkoo" having 296 souls (as per approved core network of PMGSY) after its completion. However, in this proposal some stretches of Road passes through forest area involving 8.2331 Ha of forest land that needs to be diverted for the smooth execution of the scheme.
2. Forest area can't be avoided as the proposed alignment is the only viable and technically feasible route for providing vital connectivity to these habitations.
3. Hence, it to certify that diversion of the forest land is urgently required and its use is unavoidable for the construction of the above said road.
