Ltd.) is registered with department of telecommunication (DOT) is an infrastructure provider category I (IP) to establish and maintain the assets such as dark fibers, right of way, duct space and tower.

Our Aim and objective:

Reliance Jio promises to shape the future of India by providing end to end digital solutions for businesses, institutions and households and seamlessly bridging the rural urban divide.

World second largest population of 1.2 billion, India is the young nation with 63% of its population under the age of 35 years. It has been fast growing digital audience with 800 million mobile connections and over 200 Million internet users. Reliance thoroughly believes in India potential to lead the world with its capabilities in innovation. Towards that end, reliance envisages creation of a digital revolution in India.

Reliance Jio aims to enable this transformation by creating not just a cutting edge voice and broadband network, but also a powerful ecosystem on which a range of rich digital services will be enabled – a unique green field opportunity.

VISION

Reliance 's vision for India is that broadband and digital services will no longer be a luxury item. Rather's, reliance envisioned an India where these are basic necessities to be consumed in abundance by consumers and small businesses alike, as much in far-flung villages as in our largest cities. The initiatives are truly aligned with the government of India digital India vision for our nation.

Affordable currency:

Jio has worked with all the leading device manufacturers of the world to ensure availability of 4G LTE smartphones across all price points- from ultra – premium models on one hand, to entry level models on the other.

DIGITAL CURRENCY:

Reliance Jio Infratel Pvt. Ltd.
Authorized Signatory

Jio envision a new India which will use digital currency instead of paper money for a more secure and convenient way to transact. Jio money, digital currency and digital payments business, will play a crucial role in this by offering a platform for ubiquitous, affordable and secure digital payments.

Digital entertainment and social connectivity:

Jio chat is a powerful communication application that integrates chat, Voice, video calling, conferencing, file sharing, photo sharing and much more. Jio play enables user to watch HD TV anytime, anywhere on any device, from hundreds of channels, across categories and languages. Jio beats is a premier digital music streaming service that gives instant access to millions of songs and created playlist.
