

**DIVERSION OF 0.30 HA. OF FOREST LAND FOR CONSTRUCTION OF SEWERAGE  
TREATMENT PLANT AT NADDI IN DHARAMSHALA, DISTRICT KANGRA, (H.P.)**

FILE NO. : **FP/HP/Others/51314/2020**

DATE OF PROPOSAL :

**ALTERNATE SITES CONSIDERED TO MINIMISE THE USE OF  
FOREST LAND FOR CONSTRUCTION OF SEWERAGE TREATMENT PLANT  
AT NADDI IN TEHSIL DHARAMSHALA, DISTRICT KANGRA**

**ALTERNATIVE-I**

The proposed project is situated in Mohal Naddi, Tehsil Dharamshala, District Kangra. The area proposed for diversion is 0.30 hectare of forest land. The area proposed is situated far away from the residential area and no felling of trees is involved in the construction of proposed plant.

Feature considered:

- Alignment of the proposed project is barren land and suitable for the construction of Sewerage Treatment Plant.
- Forest land involved to the tune of 0.30 Hectares.
- No disturbance to the stable slope & green cover.

**ALTERNATIVE- II**

The proposed project is situated in Mohal Naddi, Tehsil Dharamshala, District Kangra. The area proposed for diversion is 0.42 hectare of forest land. The area proposed is situated far away from the residential area and 14 number of trees are coming in the alignment of the proposed area.

Feature considered:

- Alignment of the proposed area is vulnerable to land slide.
- Forest land involved to the tune of 0.42 Hectares.
- Felling of 14 number of trees
- More disturbance to the stable slope & green cover.

**ALTERNATIVE- III**

The proposed project is situated in Mohal Naddi, Tehsil Dharamshala, District Kangra. The area proposed for diversion is 0.36 hectare of forest land. The area proposed is situated far away from the residential area and 8 number of trees are coming in the alignment of the proposed area.

Feature considered:

- The area proposed is situated on the ridge that requires cutting of slopes, thus adding to the cost of the Project.
- The forest land involved to the tune of 0.36 hectare.

- The area proposed is not suitable for the construction of Sewerage Treatment Plant.
- Felling of 8 number of trees is involved.

Keeping in view of the above facts, the alternative- I, which is suitable and environmental friendly, has been adopted for the construction of Sewerage Treatment Plant.
