NOTES

Heights are in metres and above Indian mean sea level.
Contours are approximate.
A relative height, e.g., 10, represents the approximate height, in metres, between the top and bottom of a steep slope.
The kilometre scale numbers along roads, railways and canals are shown in short type, e.g., 10, whereas milestone numbers are shown in upright type, e.g., 101.
The area adjoining the Ganga River is liable to change owing to continual fluctuation in the course of the river.
Tanks, shown dry in this area, usually contain water from July to December.
Cart-tracks and unmetalled roads in this area are generally mettable in dry season. Permission to use these along the canals is required from the Irrigation authorities.
A relative height, e.g., 10, marked along a canal, indicates the height of the top of the canal embankment above the adjacent country.

COMPILATION INDEX

A Modern Survey 1975-77. Updated for major details during 2005-06 and administrative boundaries updated during 2008-09.

Projection - UTM Datum - WGS 84

Magnetic Variation from True North about 1° West in 2005.
(Changing by about 1' annually)

1:50,000

500 m to 1 cm 2 cm to 1 km 3 Kilometres

CONTOUR INTERVAL 30 METRES
