

## CHECK LIST NO. 04

### Detail Note of the Project

#### Short narrative of the proposal and project: -

Now a days the Institution has been considered by people as one of the premier Alma-matter compared to others in the surrounding area. It has succeeded sustaining as one of the esteemed institution serving the noble cause of access, equity, quality and growth in the arena of higher education. The quality of education in any institution depends to a large extent on the availability of infrastructure, primarily buildings, class rooms, library, laboratories, administrative block, staff quarters, hostels etc.

#### A. Objectives

- To create healthy and student-centric learning ambiance in the University Campus.
- To motivate student youth to imbibe ideals of life by means of education.
- To introduce a mechanism introspection both in teaching and learning class of people.
- To supplement best learning process by gradual inclusion of modern facilities.
- To consider the society needs by involving in and creating an opportunity in the form of educational exercises.
- To functionalize unbiased approach to accessibility and growth by extending education facility economically.

#### B. Vision

To be the Institution of preferred choice by ushering the convergence of knowledge, skills and values in Education.

### C. Mission

To provide relevant education by integrating the best faculties and infrastructure so that the students can withstand the best of time and be of utmost benefit to the society.

The project envisages construction of Himachal Pradesh Technical University Hamirpur Campus, District Hamirpur, A State University under Department of Technical Education, Government of Himachal Pradesh. Every state in India is required to have a Technical University to co-ordinate and facilitate education in Engineering and allied subjects. HPTU will control undergraduate courses like BE like Civil Engineering, Mechanical Engineering, Electrical Engineering, Automobile Engineering, Computer Science & Information Technology etc. The University will control postgraduate courses like M.Tech and PhD programs (Research Programmes). In addition, HPTU will run constituent colleges in the campus to impart education in the field of Pharmacy, Tourism etc. which will directly impart education in various allied subjects. Thus, construction of HPTU will have a huge direct and indirect impact on the students through Technical Education in the state of Himachal Pradesh and other states of India. The grant of approval for the diversion of forest land, in view of non-availability of non-forest land, for the purpose of construction of Himachal Pradesh Technical University Building in Hamirpur will also greatly help the development of this area as the constituent colleges of the University will provide employment opportunities to a large population of the area and state. Various Science & Technology related, schemes of the State and Central Government will be implemented through the colleges of the University.
