Dated 1st May 2018

To
Divisional Forest Officer
Surajpur District
Surajpur
Chhattisgarh

Dear Sir

Sub: Permission for survey of Transmission line in forest Area in Odigi and Pratapur Range.

We are Hydropower developing company, presently developing 24.75 MW Small Hydro Plant in Mahan River near Chikni Village, Odgi Taluk. We are connecting this plant to Prathapur substation by 132 kV, single circuit line. We put our best efforts to avoid forest land for this transmission line. In Odigi Range and Pratapur range we need to take this line through forest area, which can not be avoided. The total length of these forest stretches is approximately 2 KMs.

Now we need to conduct DGPS survey for Transmission line in Odgi and Pratapur Range. We request your good self to grant us permission for survey. We request you to issue required forest Maps for this survey and submission of online application for forest land allotment for transmission line.

We request you to do the needful and oblige.

Thanking you.
