

NORTH WESTERN RAILWAY

CERTIFICATE FOR DISPOSAL OF DEBRIS

Dy. Chief Engineer (Construction)-I, North Western Railway, Udaipur on behalf of the North Western Railway certifies that any left over material or debris generated due to cuttings or tunnel excavation will not be used for any construction work other than for filling in railway embankment. Disposal of all the surplus material generated will be done by North Western Railway in surplus railway land located in non-forest area.

The activities of railway work will be strictly limited to the area diverted, i.e. 35.7823 hectares. Adjoining forest land will not be encroached in any hard / soft way.

Undertaking in this regard is also given that any material from adjoining forest land shall not be used directly or indirectly in any way or mean by Railway in connection with the gauge conversion project.

(Vikas Boora)

Deputy Chief Engineer (Construction)-I
North Western Railway, Udaipur
