

**FORM - 'A'**

**Form for seeking prior approval under section 2 of the proposals by  
The State Government and other authorities  
Forest (Conservation) Act, 1980**

**PART - I**

**( to be filled up by the user agency )**

**1. Project details:**

- (i) Short narrative of the proposal and project/scheme for which the forest land is required.

With the high demand of public and the local panchayat for the construction of new road to their village the survey work was conducted from kabirthing to Ratomatey School by the Consultancy, and the detail project report was submitted to the ministry government of India for the sanction of the Said Road. So the work was sanctioned under PMGSY scheme during the year 2016-17 under Rural Management and Development Department, With amounting to Rs 849.12 lakh, the length of the road is 10.325KM, width 6mtr, the said road will connect the village Kabirthing, Danteybari, Ratomatey School, Rai Gaon and Khitawara gaon of Omlok ward, while construction of the road the alignment of the road is passing partially through the Khasmal/Gaucharan of Yangtey and Omlok. Therefore the onluy suitable and technically feasible alignment was to pass to the forest land( hasmal) covering 0.2987 HA only, which is unavoidable to construct the road under any circumstances and clearance for the forest area involved is asked for.

- (ii) Map showing the required forest land, boundary of adjoining forest on a 1:50,000 scale map.

Enclosed. Topo sheet no 301/GIS/WP17/FEWMD

- (iii) Cost of the project: Rs. 849.12 lakhs

- (iv) Justification for locating the project in forest area.

The take off point of the road is from kabirthing and then the alignment of the road is passing through Danteybari village and then the Ratomatey school and then other villages, so in between Danteybari and Ratomatey school there is Khasmal of forest naming yangtey and omlok khasmal, it is noted that without passing through these khasmal it not possible to construct the road, as there is no alternate take off point of the road to connect the Danteybari village and the

Ratomey school, further the alignment of the road cannot change due to the high stiffness of the area and more than 100 people will be unconnected by Said road if the alignment is changed.

(v) Cost-benefit analysis (to be enclosed).

(vi) Employment likely to be generated.

All employment generated will be temporary,

Skilled labour 4 man x 20 days = 80mdays @ 365/day = Rs. 29,200/-

Unskilled Labour 8man x 20days= 160mdays @ 320/day =Rs. 51,200/-

= Rs. 80,400/-

2. Purpose-wise break-up of the total land required:

Name of work	Forest land	Private Land
Construction of RCR from Kabirthing to Ratomey School	Yangtey and Omlok Khasmal= 0.2987 Ha	10.63 Ha

3. Details of displacement of people due to the project, if any:

(i) Number of families. Nil

(ii) Number of Scheduled Castes/Scheduled Tribe families. Nil

(iii) Rehabilitation plan. (to be enclosed). Nil

4. Whether clearance under Environment (Protection) Act, 1986 required?(Yes / No).  
Since the schemes lies in Rural Area

5. Undertaking to bear the cost of raising and maintenance of compensatory afforestation and/or penal compensatory afforestation as well as cost for protection and regeneration of safety zone etc. As per the scheme prepared by the State Government (undertaking to be enclosed)  
Undertaking Enclosed

6. Details of Certificates / documents enclosed as required under the instructions.

- Brief project report
- Map on Scale (Coloured Toposheet)
- Joint Inspection Report
- Undertaking for Compensatory afforestation & NPV
- Enumeration list of trees/poles
