

NOTE ABOUT THE PROJECT

The forest land is required for construction of link road from Sihra to kahvi road is a rural road of district Bilaspur having a total length of 3/330 KM .this road bifurcates from Binayakghat Bandla,Sihra,Dhamna,Bilaspur Road from Sihra at R/D 14/950

The total length of the road is 3/330 out of this 2.795kms shall pass through the forest land and the rest 0.535kms constitute the private land/Govt.Land.The total forest land involved for diversion for the construction of above road will be 1.8945 hact. And the rest of land falls in the alignment is private land.

With the construction of above road there will be direct road to village kahvi.Presently the people of these areas have to travel more than 4.00km extra to reach their village.

The estimate cost of the project is Rs.109.62 lac only and approximately 9650 man days of employment would be generated with the construction of this road. The road shall be constructed under PMGSY Assistance Scheme which is a flagship program me of G.O.I.

The ill effects on the environment, which are anticipated with the construction of the road have been taken care of all the debris will be used in filling on the surface of the road and behind embankment/ retaining walls. No debris will be thrown down the slopes. The proper provision has been made to minimize the soil erosion in the catchment by proper drainage and soil conservation measures. The compensatory afforestation shall also be carried out to compensate for the loss of forest land in the construction of road. Thus every care has been taken to minimize the ill effects on the environment.
