

Note

The entire project involves an extent of 3.61 Ha in three different Forest Divisions. This includes Cauvery Wildlife Sanctuary to an extent of 3.2138 Ha, Bannerghatta National Park to an extent of 0.396 Ha and Ramanagara Territorial Division to an extent of 0.0002 Ha. Since the majority of forest land (which is more than one hectare) being diverted is located in Cauvery wildlife Sanctuary. The User Agency (UA) has to compensate the land for Cauvery Wildlife Sanctuary. And since the land which is being diverted from the Bannerghatta National Park is less than one hectare (< 1 Ha) the, therefore the User Agency shall consider to give the total Compensatory Afforestation (CA) Land to an extent of 3.61 Ha of all the three divisions in favour of Cauvery Wildlife Sanctuary.

Deputy Conservator of Forests,
Bannerghatta National Park,
Bengaluru.

Note

An extent of 3.98 Ha has been diverted for Karnataka Power Transportation Corporation Ltd (KPTCL) towards Construction of 220 KV transmission line from Somanahalli to Malur. In lieu of this land, an extent of 4.00 Ha in Bagganadodi, Sy No. 96 of Anekal Taluk, Bangalore Urban District was identified as Compensatory Afforestation (CA) land. The land has been ordered for handing over to Bannerghatta National Park by Deputy Commissioner, Bangalore Urban District on 08.03.2013. Even after the lapse of more than 8 years, CA land has not yet been handed over to Bannerghatta National Park by the User Agency. Necessary communication has been made to the User Agency (KPTCL) repeatedly for handing over the land.

Deputy Conservator of Forests,
Bannerghatta National Park,
Bengaluru.
