Sir

With reference to online query dated 27.05.2025 on the subject cited above it is submitted that we have already submitted our reply on the said observation raised from the office of Nodal Officer FCA Shimla, H.P. vide letter No. GCHPPL/Kot Dogri/FCA/2024-1 dated: 31.01.2024, however we are again submitting our reply as under:-

1. That the area measuring 12.9880 ha. is barest minimum and unavoidable. It is pertinent to mention here that about 2.2520 ha. land is required for the construction of Project Components from Weir site to Power House (Weir site, desisting tank, silt flushing, tunnel, penstock, power house, switch yard), Dumping sites and Approach road to Power House and rest 10.7360 ha. land is required for the construction of 66 Kv transmission line. It is further submitted as per FCA guidelines that width of 18 mtrs. corridor is required for the construction of 66 Kv transmission line. Therefore the area of 12.9880 ha. considered for diversion is justified and unavoidable as per FCA guidelines.

You are therefore requested to submit the case for further transmission to the quarter concerned.

Yours sincerely,

For M/S GEE CEE Hydro Power Pvt. Ltd.
