1. The above studies are relevant to the current study because they provide a theoretical framework for understanding the relationship between the variables of interest.

Last

1. The above studies are limited to the use of the *in vitro* model.

Last

1. The above information is for informational purposes only and does not constitute an offer or recommendation to buy or sell any securities or financial products.

Last

1. The above studies suggest that the use of the word "and" in the sentence "The car is red and the car is fast" is not necessary for the sentence to be true. This is because the sentence is true if the car is red, or if the car is fast, or if the car is both red and fast. The word "and" is only necessary to indicate that the car is both red and fast.
