

## CERTIFICATE

### Certificate regarding alternatives examined for liner project

This is certify that, the area proposed for Laying of 1100 mm and 400 mm Dia Underground Water Pipe Line from Patansai (Taluka Roha) to Karav (Taluka- Pen) of District Raigad – Maharashtra is unavoidable. There is no other alternate alignment possible as proposed to be laid underground along the road (National Highway-17). The pipeline route has been selected with minimum forest area and by using already sanctioned corridor from the Central Government u/s 2 of Forest Conservation Act. 1980 with permission of the NHAI. Hence choosing the three alignment area not required.
