

**Office of The Executive Engineer,
Water Resources Division Barwani, District Barwani (M.P.)**

Certificate

Sonkhedi Tank Project, a minor irrigation scheme of MPWRD is proposed to be built across a local river. This project is first and a single purpose (irrigation) project on the river.

As per Chapter 09 Irrigation and Hydro-Electric Projects, we would like to emphasize that Para 9.3(i) and 9.3(ii) are applicable only for multipurpose/ hydro-power projects in the basin.

Hence it can be taken into consideration that there is no requirement for a Cumulative Impact study and Carrying capacity study for this specific project.
