

**Public Health Circle
Gujarat Water Supply & Sewerage Board,
Junagadh**

-: AUTHORITY LETTER :-

In the matter of presenting that, I D. M. SINDHAL
Superintending Engineer, Public Health Circle, Junagadh would like to inform you that, Successive drought years & huge drawl of surface water, and due to saline zone have created critical position of drinking water in 77 villages and 1 town of Talala, Veraval & Sutrapada Talukas of Gir-Somnath district. Many villages out of Villages to be covered are suffering acute shortage of drinking water during three to four months of every summer and scarcity period. So, water is to be supplied by Tanker. Therefore, State Govt. of Gujarat has decided to provide safe potable drinking water from Existing Mahi-Narmada connectivity of NC-24/25 scheme at Pransli.

This Prachi Group Water supply scheme is Required for new proposal for passing underground D.I. pipe line from Pransli to 77 villages and 1 town of Talala, Veraval & Sutrapada Talukas of Gir-Somnath district. The proposed pipeline will be laid parallel to the road. protected forest area come along the route of the pipeline. It is necessary to make a proposal under the Forest Conservation Act, 1980. Shri N. H. BATHOD Executive Engineer from Public Health Works Division, Veraval is designated as Nodal Officer & he will do all correspondence for the project on behalf of this office.
