JUSTIFICATION FOR LOCATING PROJECT PROPOSAL IN FOREST LAND

The User Agency projected a requirement of 2.89 Ha of forest land for construction of Model School to cater the population of Tissa Block and adjoining villages so as to impart quality education in the area. The land identified for the project is strategically located near the habitation centers for which this school is being constructed. The location is ideal as it is easily accessible from all sides of this block. Since the project will serve mainly the interior villages of Tissa block, its central location and easy connectivity is a major factor for locating the project on forest land.

Deputy Director of Ele. Education,
Chamba Distt Chamba, H.P.
