

COMPARTMENT HISTORY FILE

Name of Forest.....U-35 Golan.....

Compartment or Sub Compartment No.....

Block.....Sun1.....

Range.....Bhajji.....

Division.....Shimla.....

(S) U.35 GOLAN

Scale-1 : 15000

Area - 82.4 sq. km.

LEGEND

Description of growing stock,
(Including Density, Quality,
Regeneration, Under growth,
Special treatment and Past
history)

Growing Stock:- Fairly dense Scrub forest. The forest also ^{has} few scattered trees of chil and khair. A plantation of chil has been done in the past but the success is not satisfactory. Heavy growth of Euphorbia, Corrisa, Berberis forms the thick undergrowth. Few scattered trees of Khair, Eugenia, Semal etc also occur.

The area is very steep and rocky along the Sainj khad and upto Golan lher. Regeneration is absent.

Density:- Dense Scrub forest.

Regeneration:- Absent.

Underwood:- Absent.

Undergrowth:- Thick under growth of Corrisa, Euphorbia, Berberis, Bauhinia etc.

Allotment:- Bio-sphere Conservation Working Circle.

Treatment:-

- i) Effective closure.
- ii) Planting of chil and other broad leaved species along the ridge towards Manchorghet to improve the stocking of the crop.

Compartment or Sub Compartment No.....

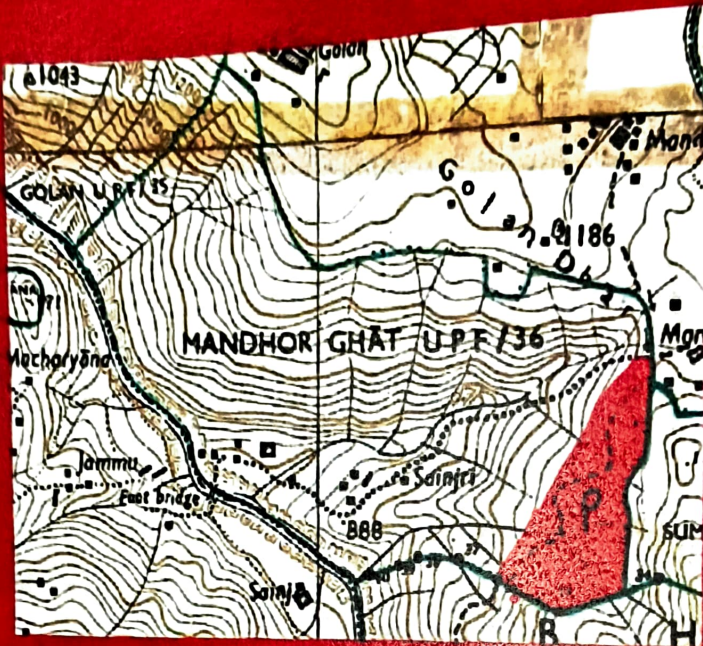

Block.....Sunl.

Range.....Shajji.

Division.....Shimla.

(S) U.36 MANDORGHAT

Scale-1 : 15000
Area - 115.9 ha.

LEGEND

CHIL PLANTATION

No change in Title

W.P.O. SHIMLA

Description of growing stock,
(Including Density, Quality,
Regeneration, Under growth,
Special treatment and Past
history)

Growing Stock:- Mainly a thick scrub forest. A part of forest near Mandhorghat above & below the Road bear chil which is a result of old plantation of about 10-12 years old. Few mature trees of chil also exist along the boundary with LPF Mahasa-Ser.

North portion on the other side of Nalla from Mandhorghat bears thick shrub growth of Lantana, Euphorbia & few Khair. Few trees of Eucalyptus, Behra, Laroo, Kamel Pyrus, also exist scattered. The area is burdened with heavy grazing rights.

Density:-

0.1

Undergrowth:-

Thick under growth of Zizyphus, Euphorbia, Lantana, Carissa & Loddonia etc.

Underwood:-

Absent.

Regeneration:-

Absent.

Allotment:-

Plantation Working Circle.

Treatment:-

- i) Effective closure.
- ii) Planting of chil, Khair, Laroo, Behra, Eucalyptus etc.
- iii) Raising of Ipomea, Vitex & Agave along the fence.
