

**APPENDIX****(See Rule 6)****FORM-'A'**

Form for seeking prior approval under section 2 of the proposals by the state  
Government and other authorities

**PART-1****(TO BE FILLED BY USER AGENCY)**

1.	Project details:	
(i)	Short narrative of the proposal and project/ scheme for which the forest land is required.	The present proposal is for prior approval for diversion of 0.6228Ha of the Forest Land under F(C) Act 1980 for the purpose of Laying of approach road to proposed Municipal Solid Waste (MSW) Treatment and Disposal facility located at Pyaranagar (V), Gummadidala (M) in 152 Acre Govt. land which was already handed over the GHMC by the Concerned Revenue department abutting the forest land. The construction of approach road requires a length of 510.492mt with the width of 12.20mt. Hence the Forest area proposed for diversion is 0.6228Ha in Sangareddy division.
(ii)	Map showing the required forest land, boundary of adjoining forest on a 1:50,000 scale map.	Map showing the forest with DGPS Survey data map submitted to Forest Department for authentication(enclosed).
(iii)	Cost of the project	70.00Lakhs
(iv)	Justification for locating the project in forest area	GHMC is scientifically treating and disposing about 5800 MT (on an average) Municipal Solid Waste generated in the city at Integrated Municipal Solid Waste Management (IMSW) plant located at Jawahar Nagar. IMSW plant Jawaharnagar is situated over an extent of about 339 Acres at North East corner of the city that is operational since 2012. As such the working load on this existing IMSW facility is exceed beyond the original plan in the original DPR. Therefore the GHMC is bound to develop T&D facility in other directions to the city. The Hon'ble National Green Tribunal, New Delhi has also issued directions in O.A.No.780/2017, dt.17-12-2017 to the state of Telangana to identify land fill sites in the state within three months of order and ensure that Solid Waste is

disposed in such sites strictly according to the Solid Waste Management Rules, 2016.

In this process, GHMC has acquired land to an extent of 152 Ac area located at Payaranagar (V), Gummadidala (M) from Revenue Department for the purpose of establishing MSW treatment and disposal facility from Revenue department, but the land is not having proper approach road.

Therefore, to avoid the plying the vehicle carrying MSW from the surrounding village roads and to have a direct approach to the said site from the nearest main road i.e. State Highways SH6, GHMC was finalized the approach road alignment through forest land after the joint inspected by the GHMC and Revenue department officials along with the Concessionaire for the proposed MSW Plant and the details of forest land required is as follows:

Division Name	Block Name	Component	Length in Mts	Width in Mts	Area in Ha
Sangareddy	Jinnaram	Laying of approach road	510.492	12.20	0.6228

The proposed road will provide access to the processing and disposal facility of Municipal Solid waste (MSW) as per Solid waste Management Rules 2106. The MSW generated near to this site from GHMC area will be diverted to the proposed facility. It is estimated that around 1500 tones will be processed at this facility. Currently all the quantity of MSW generated in Hyderabad city is being sent to the processing and disposal facility at Jawahar Nagar, KapraMandal, Medchal-Malkajgiri district. This facility will reduce the burden on the current facility and fulfill the NGT order partially.

Further, by establishing the said facility in the available Govt land, there will be a savings of around Rs. 6.50 lakh in transportation cost to GHMC and around Rs. 330.00 Cr when projected for the life of the proposed facility, to that extent of MSW transported to Jawahrnagar.

		Further, there will be a reduction in carbon emission into the atmosphere to the extent of reduction in travel distance of Transport Vehicles.												
(v)	Cost-benefit analysis.	Not Applicable												
(vi)	Employment likely to be generated	710 man days (10 labors shall be deployed for laying of road for a duration of 71 days)												
2.	Purpose-wise break-up of the total land required.	<p>The purpose acquiring the entire forest land, as proposed in the table below, is for Laying of approach road to proposed Municipal Solid Waste (MSW) Treatment and Disposal facility located at Pyaranagar (V), Gummadidala (M) at available Govt. land abutting the forest land.</p> <p>The extent of forest land required is as follows:</p> <table border="1"> <thead> <tr> <th>Division Name</th><th>Block Name</th><th>Component</th><th>Length in Mts</th><th>Width in Mts</th><th>Area in Ha</th></tr> </thead> <tbody> <tr> <td>Sangareddy</td><td>Jinnaram</td><td>Laying of approach road</td><td>510.492</td><td>12.20</td><td>0.6228</td></tr> </tbody> </table>	Division Name	Block Name	Component	Length in Mts	Width in Mts	Area in Ha	Sangareddy	Jinnaram	Laying of approach road	510.492	12.20	0.6228
Division Name	Block Name	Component	Length in Mts	Width in Mts	Area in Ha									
Sangareddy	Jinnaram	Laying of approach road	510.492	12.20	0.6228									
3.	Details of displacement of people due to the project, if any:													
(i)	Number of families.													
(ii)	Number of Scheduled Casts/ Scheduled Tribe families.	Not Applicable												
(iii)	Rehabilitation plan (To be enclosed)													
4.	Whether clearance under Environment (Protection) Act, 1986 required? (Yes/No)	<p>No</p> <p>(However, necessary environmental clearance from TSPCB will be obtained for the proposed MSW treatment plant</p>												

		proposed in the Govt. land abutting the forest land will be obtained)
5.	Undertaking to bear the cost of raising and maintenance of compensatory afforestation and/or penal compensatory afforestation as well as cost for protection and regeneration of Safety Zone, etc., as per the scheme prepared by the State Government	Enclosed.
6.	Details of Certificates/documents enclosed as required under the instructions.	<ul style="list-style-type: none"> <li>❖ Justification for locating the Project inside the Forest Land</li> <li>❖ Undertaking for depositing the funds towards raising and maintenance of Compensatory afforestation.</li> <li>❖ Undertaking for depositing the funds towards payment of Net Present Value (NPV) and Additional NPV.</li> <li>❖ Undertaking for depositing the funds towards payment of extraction of tree growth.</li> <li>❖ Certificate of Area Minimum.</li> <li>❖ Detailed statement requirement of forest land.</li> <li>❖ Map in SI sheet showing the forest land</li> <li>❖ Certificate for non-violation of Forest (Conservation) Act, 1980..... etc</li> </ul>
