HEIGHTS & CONTOURS IN METRES

CONTOUR INTERVAL 20 METERS

Colors are approximate:
A reddish-brown, 10', represents the approximate height, in meters, between the top and bottom of a steep slope.
Wooded areas are colored green. Exposed trees and other vegetation are in black, but prominent isolated trees are in green.

*The application.

The transposed heights and distances in this chart have not been adjusted to the heights of the eye-levelled base-heights and may not be exactly in accordance with them.

A relative height, e.g., 30, against a real distance in road depth is shown.

Unadjusted roads in this chart are generally identifiable in any corner.

The following street numbers along roads and the railway are shown in short type, e.g., '3' whereas station numbers are shown in capital type.

Tanks in this area usually receive water from July to January. Cultivation is possible and dependent on rainfall.
