Subject :- Correction to Non Forest Area in Parivesh 1.0

Dear Sir,

We have submitted a proposal in Parivesh portal 1.0 named "Nandgaon-Khandeshwar" whose proposal number is FP/MH/Others/33979/2018 and its applied area is 0.1837 Ha. As per the old application, non-forest area was shown as zero, but now it has changed and non-forest area is now 0.2296 Ha. Now we want to change the area in parivesh also, the Edit option is also available in Parivesh 1.0 but even after going to it, we are unable to change the area, it has been freeze. So we request you to help us to resolve this issue so that we will make the necessary changes and submit the proposal to the Nodal office for further course of action.
