NOTES

Distance stones along canals and drains are 1000 feet apart and every existing fifth stone is shown whereas along Bathinda Branch (SIRINDI CANAL) and Pishkoti Distributary there are 5000 feet apart and every existing one is shown.

Permission to use cart-track and unmetalled roads along canals is required from the irrigation authorities.

Tanks shown dry, in this area usually contain water from July to December.

Townships are numbered throughout the sheet, only the important ones have been shown.

A relative height, by, represents the approximate height, in metres, between the top and bottom of a steep slope.

Most of the wells in this area are generally disused.

The administrative boundaries and names have been brought up-to-date to 2008 and unmetalled roads, cart-tracks are motorable in dry season.
